

Shoulders Released From Medical Center

Springfield, Mo. — (U.P.) — Former St. Louis Police lieutenant Louis Shoulders, convicted of perjury in connection with handling of the Greenleaf kidnap ransom, was released from custody at St. Louis early Saturday, the associate warden of the U. S. Medical Center here announced.

The official, E. J. Lloyd, said Shoulders was removed from the medical center at 9 p.m. Friday and was taken by private ambulance to St. Louis. He was accompanied by relatives whom Lloyd declined to identify and by medical center officers.

His release from custody came sometime after midnight, Lloyd said.

Shoulders was sentenced on May 21, 1954, to three years imprisonment for lying to a federal grand jury. He was received at the medical center July 15, 1954.

Shoulders and former patrolman Elmer Dolan arrested Carl Austin Hall, who later was executed, along with his confederate, Mrs. Bonnie Heady, for the kidnaping of six-year-old Bobby Greenleaf, son of a Kansas City automobile dealer.

Plan Presented for Baptist Convention

Seattle — (U.P.) — The Rev. Dr. R. Claibourne Johnson, Waukegan, Ill., Saturday presented a plan for re-organization of the American Baptist Convention at its 49th annual meeting here.

Claibourne is chairman of a committee which has been working on the plan for the past year. It is designed to strengthen the convention's general council by unifying administrative functions and providing for unity in policy-making and program planning.

Nearly 10,000 delegates from 34 states and Canada are attending the sessions which will run through June 22.

Louisiana Couple Has 20 Tons Of Strawberries for Breakfast

Alexandria, La. — (U.P.) — Mr. and Mrs. Pink Vasher had strawberries for breakfast Friday, 20 tons of them.

A huge trailer-truck loaded with 40,000 pounds of frozen berries jumped a ditch, plowed through a potato patch, knocked down a utility pole and ended up in the Washer's living room at Lena Station just north of here.

The only injury was a small cut on the arm by Gordon L. Forman, Baton Rouge, a passenger in the truck. The driver was Travis L. Spurel, Los Angeles.

The Washer house was knocked about three feet off its foundation by the blow. The couple was asleep in the bedroom when the truck hit and stopped just inches from the bed.

Damage was estimated at \$32,000 to the house, truck, contents and the power line that was torn down.

Spurel was charged with careless and reckless driving.

10 Oklahoma Farmers Return From Russia

New York — (U.P.) — Ten Oklahoma farmers came back Saturday from a 20-day tour of the Soviet Union and agreed unanimously that Americans could not learn anything from Russian agricultural methods.

But they likewise agreed that the Russian people are eager to see Americans, that their standard of living is being raised through hard work, and that the Russian group do not want war.

The group arrived on a Scandinavian Air Lines plane from Stockholm. They were among 27 Oklahoma farmers who left on May 8 for Moscow.

The farmers and cattle raisers expressed amazement at the amount of work done by women on Russian farms.

Cattle Raiser
Ted R. Warkentin, Lawton, Okla., a cattle raiser, said the proportion of women workers on most of the collective and state farms visited was 2 to 1.

"I only saw one farm on which there was an equal number of men and women workers. The women milk the cows, clean the barns and do all sorts of menial tasks. You know Oklahoma women wouldn't stand for that."

While mechanization of farms and general scientific know-how is far below U. S. standards, the Russians seem to be getting near maximum production under their present system, Warkentin said.

He said, they have "three or

Diminishing Winds Help Fire Fighters

Winslow, Ariz. — (U.P.) — Diminishing winds during the early-morning hours enabled weary crews to gain their best headway in three days on a multi-million dollar fire which by Saturday had destroyed an estimated 22,000 acres of forest timber.

The fire was reported virtually surrounded by control lines at 7 a.m. Wind had died down to three miles per hour during the night.

Hope was expressed that the fire could be controlled today, if winds did not reach the proportions which in three days have fanned flames in the man-caused blaze 40 miles south of here in Sitgreaves forest.

However, the U. S. Weather Bureau forecast winds of 20 miles per hour which veteran observers said would make it difficult for fire-fighters to hold their hard-won gains. Although winds reached 25 miles per hour in gusts Friday, it is normal for a calm to set in during the early morning, according to the U. S. Forest Service at Holbrook, Ariz.

The picture was the brightest it has been since the fire started Wednesday and there appeared a definite chance the blaze could be controlled by Sunday, barring a drastic change in conditions.

An estimated 700 men were fighting the fire today.

The fire had burned over an area about 12 miles long and four to five miles wide.

Light Jet Bombers To Remain Grounded

Washington — (U.P.) — An Air Force spokesman Saturday confirmed reports that all B57 light jet bombers are still grounded and said they would be until crash-causing kinks are worked out.

The spokesman said the light jet bombers have been grounded since about January. He said this was "common knowledge."

A radio correspondent reported in Tokyo that the planes were grounded in May after 30 air men had been killed. The Air Force spokesman said that there had been "several crashes" before the planes were grounded.

But, he said, he did not know how many air men had lost their lives in the accidents.

The Air Force spokesman explained that the main problem with the B57 is that it becomes hard to handle at certain speeds which can be very dangerous in a high-speed bomber.

Another problem, the spokesman said, is an apparently faulty horizontal stabilizer in the jet bombers.

Subcommittee Approves Unknown Soldier Bill

Washington — (U.P.) — A House Armed Services subcommittee Friday approved a bill to bury unknown soldiers of World War II and the Korean war in Arlington National cemetery near the unknown soldier of World War I.

The measure calls for ceremonies to be held on Memorial Day, 1958. Construction of two more crypts, alteration of the present tomb of the unknown soldier and the ceremonies are estimated to cost \$457,000.

4-H Club News

Southwest Poultry
Southwest Poultry Club held a meeting at the home of Mr. and Mrs. Glenn Balterston, 1304 Orchard Home drive. The meeting was called to order by Mavis Strom, club president.

Plans for the club's annual picnic were discussed.

Industry Shift to West Coast Gains

San Francisco — (U.P.) — West Coast shippers were told Friday that an increasing industrial shift to the West has resulted in "the strange picture of western heavy industry producing for the markets of the East."

"That picture is becoming ever more common," Roy G. Luicks, president of the California Packing Corporation, said at a luncheon meeting of the Pacific Coast Shippers Advisory Board.

He said the industrial shift to the West is gathering momentum and as a result, "the flow of finished goods has changed its pattern in the last years."

Some 500 shippers met here in the board's 100th quarterly session to study freight traffic trends.

The board forecast a seven per cent increase in car-loadings for the third quarter of 1956 with a heavy 81.9 per cent increase in ore and concentrate shipping off-setting a predicted 25 per cent decline in automobile and truck shipments.

During July, August and September, the board said, an estimated 505,085 cars will be loaded—some 33,000 more than during the same period last year.

MAYBE HE CAN

Chicago — (U.P.) — Mrs. Gladys Wise asked George Barnes to watch her tavern while she went out for a short time. Barnes locked the place up, after pouring 145 fifths of whiskey down the drain, emptying four beer barrels, and smashing 20 cases of beer. On being sentenced Friday to 30 days in jail, Barnes explained, "I just got mad. I'm tired now. Maybe I can use the rest."

REDS FIRE AT SHIP

Hong Kong — (U.P.) — The British freighter Dorintia reported it was fired on Friday by Communist Chinese shore batteries off Foochow but did not suffer either casualties or damage.
