Ike May Get Report On Convention Plans

Washington — (U.P.) — The White House said today President Eisenhower probably will receive a full report Saturday on final plans for the Republican National convention which starts Aug. 20 in San Francisco.

These plans are being whipped into shape today by some 40 GOP leaders meeting here. They are based on the assumption that the party will renominate Mr. Eisenhower and Vice President Richard M. Nixon.

But White House Press Secretary James C. Hagerty flatly refused to clear up mounting questions on the hospitalized President's second term intentions following his operation.

Hagerty told reporters at Walter Reed hospital where the President is convalescing that Mr. Eisenhower knows the Republicans are meeting today.

Color TV Sets Expected To Reach 300,000 in '56

Chicago — (U.P.) — A television manufacturer predicts that the industry will sell 300,000 color TV sets this year and as many as 1,000,000 in 1957.

Robert W. Galvin, executive vice president of Motorola Inc., said at the same time that price tags on color receivers should work down to a \$600-\$800 range in 1956 and \$500-\$600 in 1957.

At current prices of \$700-\$1,000, he said, color TV sales may reach 50,000 this year.

Galvin said current prices are "still out of practical reach for a mass market" but not prohibitive for commercial enterprises.
