Signed: STANLEY STARK Chairman  
Signed: MARINA GATES Secretary

### Trouble Shooter Sent to Ankara

London — (U.P.) — Britain disclosed today it is sending one of its top trouble shooters to Ankara where Turkish opposition has forced eleven-hour postponement of a new government plan to offer self-rule to Cyprus.

Informed sources said Gen. Sir Gerald Templar, chief of the Imperial General staff, would be entrusted with the delicate mission. He will fly first to the embattled island colony itself before proceeding to the Turkish capital.

At the same time it was reported that Sir John Harding, governor of Cyprus, will fly back to the island "within a few days." Diplomatic quarters believed that this means his three weeks of negotiations were nearly complete and that he would have a new plan when he re-

### Boy's Confession Of Murder Rejected

Washington — (U.P.) — Police Thursday night rejected the confession of a 16-year-old boy that he murdered two teen-aged girls in a nearby Maryland park a year ago.

Prince Georges Police Chief George Panagolis said the youth, Donald Wayne Davis, Hillside, Md., lied when he confessed to the rifle-slaying of Nancy Shomette, 16, and Michael Ann Ryan, 14.

The girls were shot as they walked through Northwest Branch Park near the University of Maryland on their way to school June 15, 1955. Police have questioned more than 3,000 persons in connection with the baffling crime.

## Feeding the Family

By ZOLA VINCENT  
Food Editor

### Popular Cheese Spreads

This cheese spread is tremendously popular as appetizer with beverage of any kind. Serve on an assortment of crisp crackers, small slices of rye bread or thin a bit with a little light cream and use as a "dunk" for crackers, potato chips or corn chips.

In a bowl, combine 12 ounces (1½ cups) creamed cottage cheese, two ounces blue cheese, one teaspoon Worcestershire sauce and one-half teaspoon scraped onion. Beat or otherwise blend thoroughly. Some cooks put ingredients through a sieve and blend with a wooden spoon until smooth. Chill in refrigerator until serving time.

Blue cheese nuggets are a fine party item. Recipe will make 18 nuggets for offering on small wooden picks. Blend three ounces cream cheese, one ounce blue cheese and a dash of Worcestershire; chill, roll into half-inch balls, then roll balls in finely crushed potato chips or corn chips.

### Carrot Soup

Plentiful, flavorful, colorful carrots make a delicious, attractive, satisfying soup. Cook two tablespoons finely chopped onion in two tablespoons butter or margarine for a few minutes. Blend in two tablespoons flour. Add one quart hot milk and one cup grated raw carrots, salt and pepper to taste. Cook, stirring frequently until carrots are tender. Four servings.

### Potato Soup Variation

Potato soup with meat is a

fine luncheon or supper specialty certain to be enjoyed by growing boys and girls. Cook two cups diced potatoes and one small sliced onion in boiling water until soft. Put through a ricer or mash slightly. Cut two frankfurters into one-quarter inch slices; add frankfurters, salt, pepper and two cups of milk to potato mixture. Heat thoroughly, garnish with dash of finely chopped parsley and serve. Four servings. For variety, salami or other luncheon meat, cut in pieces, may be used instead of franks. Or sprinkle with chopped cooked ham or with cooked sausage meat that has been fried crisp, then crumbled.

### Creamed Dried Beef

If you've not had creamed dried beef on toast or on waffles recently, here's a treat for the family. Good for breakfast, lunch or supper.

Separate one-quarter pound thinly sliced dried beef into fairly small pieces and fry in three tablespoons butter or margarine until meat curls slightly. Sprinkle with three tablespoons flour; gradually add three cups cold milk while heating slowly and stirring constantly until smooth and thickened. Six servings but our guess is that it will serve three persons, so plan accordingly.

### Cheese Fondue

Here milk and cheese combine in the simplest of all fondue recipes; packed with good nutrition, good eating.

Beat four eggs well. Mix two cups hot milk, two cups soft bread crumbs, one-half pound finely cut cheese (two cups), one tablespoon butter and dash of salt. Stir this mixture into the beaten eggs. Pour into a well-greased shallow pan and bake in a moderate oven for about 25 minutes or until set and lightly browned on top. Serve at once. Six servings.

### White Sauce Reminders

There's good nutrition in white sauce which combines milk and butter with a bit of flour for use in ways beyond numbering. Everyone knows how to make white sauce so we're going to remind you only of good nutritious uses:

Thin white sauce is ideal for soups.

Thin and medium white sauces are used for cream soup, gravy, creamed and scalloped vegetables, hard-cooked eggs and practically any cooked fish or meat.

Thick white sauce makes a binder for croquettes, souffles. Milk gravy is just white sauce made with pan drippings from meat instead of butter.

### Cheese Dessert Tray

usually features fingers or cubes of tangy blue cheese, triangles of Camembert, scarlet-coated half moons made by slicing down through a Gouda. Fruit assortment and crackers usually are accompaniments.

### Markets Offer Good Buys

With milk production at the year's highest levels, we find an abundance of cottage cheese for frequent offering on family menus "as is" and in combination with seasonal tomatoes, cucumbers, green peppers, shredded lettuce as well as with berries and fresh, frozen or canned fruits. Plentiful sour cream has been growing in popularity right

along; is superb with fruits and berries. Sour cream simply seasoned or in combination with mayonnaise goes into and onto many greens and mixed vegetable salads; tops tomato soup. Cheddar cheese is a good buy, chock full of high quality protein for making of main dishes. Remember to step up the milk order now that the children are not getting that extra milk at school. Give the family ice cold buttermilk to drink for a change. Step up family nutrition by adding non-fat dry milk to soups, main dishes, baked items. Ice Cream, of course!

### Poultry Plentiful

Broilers and fryers will tempt many shoppers as markets offer specials. Stock the home freezer; keep plenty of poultry handy for good eating, broiled or fried, hot or cold. There's no finer supper eating than cold fried chicken with bread, butter and cucumber sandwiches.

### Beef Continues Abundant

Again we say, make the most of the high quality beef offered right now at reasonable cost with genuine bargains on ground

hamburger - types and stewing beef. Prices on other meat is edging up. Watch for cured pork specials which are less frequent now.

Eggs of all grades are very good buys. Give Father and the boys two eggs at breakfast; make an angelfood or other egg-rich cake for a change. Hard-cook a half dozen and fix deviled eggs for a fine salad. Remember, Grade A eggs for "eating"; grade Bs for ingredient uses such as cakes, meat loaves, etcetera.

Dead line Sunday Classified is at noon Saturday.

# Big Torque of the Best Sellers

IT WOULD stand to reason that automobiles selling in the same league, so to speak, would be pretty close in their engineering specifications.

Like in "torque multiplication" — the twisting force a transmission delivers to the drive shaft. (The greater the torque multiplication, the greater the performance).

But what do you find? You find that any '56 Buick with advanced new Variable Pitch Dynaflo\* delivers a higher torque ratio than any standard-production car in America.

And you find that this high-torque performance is one reason for Buick's best-seller standing. For Buick is now more strongly positioned in the Top 3 of the nation's biggest-selling automobiles.

That's news—and there's plenty more where that came from.

For the '56 Buick is jam-packed with new engineering and styling advances to make it the best Buick yet, by far.

That new Dynaflo, for example. Not only does it bring you the top torque ratio in the nation today. It brings you the world's only switch-pitch performance in cars — plus a new part-throttle getaway response that's swifter, surer, and a gas-saver to boot.

The big new V8 engine you find in every '56 Buick—it's 322-cubic-inches big, and packed with the highest horsepower, the highest compressions and the most advanced developments in all Buick annals.

There's a joyous new ride, too—

steadied on a massive X-braced keel—cushioned on deep-oil shock absorbers—and buoyant with a new levelness on both country road and highway.

There's a new steering magic here that puts a new ease at your finger tips, and a new "sense of direction" in your every handling maneuver.

Thing to do, of course, is to come see and try for yourself.

That way you can also get a good hard look at the prices that have helped move Buick to a new sales success—to outselling all other cars in America except two of the well-known smaller ones.

Will you do that, this week?

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

**AIRCONDITIONING at a COOL NEW LOW PRICE**

It cools, filters, dehumidifies. Get 4-Season Comfort in your new Buick with genuine FRIGIDAIRE CONDITIONING
