

Air Crash Victim's Funeral Planned

Portland —(U.P.)—Funeral arrangements were being made today for Mark P. Miller, 31-year-old president and treasurer of Terminal Flour Mills Company here who was killed in a plane collision over Seattle yesterday. Miller and two others were killed when two light planes collided about 1000 feet above the ground and plunged to earth. The other victims were Calvin W. Boyle, 32, and Ellis Clark, 43, both of Seattle.

Miller had flown alone to Seattle yesterday to attend a meeting. He was a graduate of the university of Oregon and played football as a tackle there in 1946 and 1947. He was a B-17 pilot during World War II and won the air medal with two oak leaf clusters.

He was the son of the late Mark P. Miller, veteran Portland and Spokane flour manufacturer.

Survivors include his widow and three small children.

Wilson, Radford Rap Extra Air Force Fund

Quantico, Va.—(U.P.)—Defense Secretary Charles E. Wilson and Adm. Arthur W. Radford fired a torpedo today at a Senate Republican compromise plan to vote the Air Force an extra \$500,000,000, most for jet bombers.

Wilson cried "phony" at Democratic efforts to add \$1,160,000,000 to the new air budget and said he didn't like the Republican compromise plan any better.

Radford, chairman of the joint chiefs of staff, said he considered the budget for the year starting July 1 "adequate" as proposed by the Eisenhower administration. He did not favor an increase.

Wilson, presiding over his annual conference of top civilian and military leaders here, told newsmen he doubted that Russia can launch a bombing attack on the United States with its vaunted Bison jet bombers. America's B52 is a "greatly superior" airplane, he said.

Enrollment at SOC Totals 441 Students

Ashland — Enrollment at Southern Oregon college for the summer session as of June 20 stands at 441 students.

Though final count has not as yet been made, a breakdown shows 54 students are veterans, 84 new students, 357 old students, 313 women, and 129 men.

Students enrolled in the elementary teacher education program total 367, and 51 are listed in the field of secondary education.

Seventy-eight enrollees are student transfers from other colleges, and 133 students are taking graduate work.

Oregon Forest Lands Exchanged Between Forest Service and BLM

Washington —(U.P.)—The secretaries of agriculture and interior yesterday signed orders changing more than 480,000 acres of land under their administration in Oregon.

The orders were signed by Secretary of Interior Fred A. Seaton and Secretary of Agriculture Ezra T. Benson after a cabinet meeting at the White House. The consolidation was effected under the Cordon-Ellsworth law adopted June 24, 1954. It was a major step in untangling the complicated federal land pattern in Oregon.

Land Consolidated
The Agriculture Department's forest service has administered the even numbered sections of the large block of land and Interior's Bureau of Land Management the odd-numbered sections.

The Cordon-Ellsworth law directed an exchange so that land administered by the forest service will be consolidated in blocks in certain areas and those administered by the Bureau of Land Management consolidated in other areas.

Involved in the exchange are 241,137 acres of National Forest lands and 242,734 acres of re-vested Oregon and California railroad grant lands in 13 counties of western Oregon.

Odd Sections Granted
These lands were intermingled because the federal government in 1866 granted to the Oregon and California railroad the odd sections of lands within a certain distance of the railroad line.

Released Priests Said Ordered Home

Hong Kong —(U.P.)—The Society of Jesus has ordered two of its priests recently released from Communist prisons to leave Red China as soon as possible, it was disclosed today.

The Rev. John W. Clifford and the Rev. Thomas L. Phillips, both of San Francisco, have booked passage aboard a freighter leaving Shanghai next week. They are scheduled to arrive in Hong Kong June 30.

The Catholic Mission Newsletter disclosed that relatives in the United States have received letters from a Franciscan priest, the Rev. Fulgence Gross, who also was imprisoned by the Chinese Communists.

Gross' next of kin is listed as Franciscan Herbert Schmalz, Chicago. Gross, arrested in March, 1952, had not been heard from until last December when relatives received his first letter.

BOMB KILLS 3 CHILDREN
Vienna, Austria —(U.P.)—Three Hungarian children, aged five to nine, were killed when a World War II mine which they found exploded while they were playing with it Thursday.

Funds Allowed for Upper Colorado Job

Washington —(U.P.)—A Senate-House conference committee has allowed \$13,000,000 for construction and planning on the Upper Colorado Project in fiscal 1957, it was learned today.

The amount is the same as proposed by the Senate and \$7,000,000 more than allowed by the House. Originally, the House Appropriations committee had allocated only \$3,155,000 for the project.

The House Appropriations committee had cut back a \$6,000,000 administration request for the project on grounds construction on main units could not start until next spring. Additional funds, the committee said,

Radioactive Rain Falls on Australia

Brisbane, Australia —(U.P.)—Radioactive rain was reported falling today in the mining center of Kuridala, 1650 miles east of the Montebello Islands where Britain exploded an atomic bomb last Tuesday.

The report followed an announcement Wednesday that an atomic cloud from Britain's test atomic explosion in the islands off western Australia coast had drifted eastward over the mainland.

Residents of the Kuridala area could be sought in a supplemental appropriation bill.

were warned not to drink any of the rainwater. A Queensland university atomic scientist said it appeared that the experts who exploded the nuclear test device last Tuesday had failed to get correct weather reports.

Italy is smaller in area than the state of New Mexico.

Home accidents in the U.S. took a toll of 27,000 in 1955.
