

Queen Candidates, Other Plans Told for Jacksonville Jubilee

Jacksonville — Eight Queen candidates and other plans for the annual Jacksonville Gold Rush Jubilee have been announced by Ike Dunford, Jacksonville, general chairman.

The Jubilee will be held Saturday and Sunday, Aug. 4 and 5, with parades, entertainment and various contests scheduled.

The Queen will be named at the annual Queen's Ball, Wednesday, Aug. 1, Dunford said. The Queen is selected on the basis of the number of tickets sold in a contest among candidates. Prizes for winners in the Queen's contest include a live white faced beef, a \$75 wardrobe and an electric frying pan, Dunford said.

Queen Candidates

Candidates for Queen include Marion Christean, sponsored by Crater Lions club; Carol Coghill, Medford Junior Chamber of Commerce; Ethel Culver, Talent Lions club; Shirley Mae Lilly, Medford Lions club; Marilyn Stewart, Jacksonville Lions club; Gayle Seymour, Ashland Junior Chamber of Commerce; Dixie Lee Walker, Gold Hill Lions club; and Vicki Noel, Central Point Junior Chamber of Commerce.

Members of the Queen's committee include Bob Shepard, Bob Bernardi Charles Schuler, Jerry Lausmann, Dr. A. A. Griffin, Bob Dye, Neal Smith and Melvin Anhorn.

Jubilee events will include a Kiddies parade starting about 10:15 a.m. Saturday, Aug. 4, at the Jacksonville school grounds, where a barbecue sandwiches, coffee and milk will be served free by the Medford Lions club between 10 and 11 a.m. that day.

Francis Guidry of Jacksonville is chairman of the Kiddies parade.

The Jubilee's principal parade will start at 1 p.m. Sunday, Aug. 5, Dunford said, with prizes awarded for various entries, have a historical theme if possible. Marching units also will be in the parade, he said. Elliott Becken of Medford is chairman for the main parade.

The Old Fashion parade, Dunford said, will be scheduled at a later date. E. D. McIntyre of Jacksonville is chairman for the Old Fashion parade. Log bucking, ax throwing and gold panning contests will be scheduled. The Talent Lions club will sponsor various contests, he said.

Jubilee headquarters this year are at 309 California st., Jacksonville, next to the old U.S. Hotel, which has been condemned for use. The telephone number for headquarters in Jacksonville is 9-8343, Dunford said.

Juliana, Husband Make Appearance

The Hague, Netherlands —(U.P.) Queen Juliana and her husband, Prince Bernhard, Sunday will make their first public appearance together since rumors of a rift between them came to world-wide notice.

In an unusual announcement, the Dutch Olympic Committee said the royal couple and two of their daughters, princesses Irene and Margriet, will attend a fund-raising sports exhibition at Amsterdam Olympic Stadium, Dutch royalty frequently has attended the meet but always without advance notice.

On June 15 Prime Minister Willem Drees called an unprecedented press conference to deny that Queen Juliana's association with faith healer Greet Hofmans had caused trouble in the Dutch cabinet.

He also denied that the royal couple was considering divorce or that there was any chance the Queen would abdicate. Prince Bernhard was reported to be bitterly opposed to Miss Hofmans.

But Drees refused to answer questions on the faith healer's influence over the Queen. He said Miss Hofmans' activities had been investigated and found perfectly legal.

1957 Timber Sale Plan Started by BLM Here

The Medford office of the bureau of land management is beginning work on the 1957 calendar year timber sale plan for O and C and public domain land.

Forest industry representatives who wish to suggest that specific tracts of timber be among those offered for sale next year may contact the office in the Medford city hall for blank forms. Assistant District Forester John Carnegie stated that the deadline for submitting suggestions is Aug. 15.

Factors Considered

The district forester and his staff prepare the plan on the basis of the volume of timber that can be sold under scientific sustained yield management. They also consider manpower available to prepare and supervise sales, the necessity for sound silvicultural practices, and the interest indicated by prospective purchasers in specific tracts. Priority will be given timber suggested by industry, providing that certain requirements are met.

All timber to be sold must be either old growth or salvage. Tracts approved for inclusion in the plan will be well scattered throughout the entire district. No sale will be scheduled if it is too large for the average operator. No timber will be offered unless equal access can be assured for all prospective purchasers. Terms and conditions of access are available to any bidder in advance of the sale.

Other Requirements

The bureau also requires that the manufacturing of the timber into lumber, plywood, pulp, etc. must be accomplished within the boundaries of the marketing area in which it is located, except for incense cedar which may be manufactured in any of the three marketing areas. The only other exception is that salvage timber that does not receive a bid may be processed in any O&C marketing area if purchased within 90 days of the date the timber is first offered for sale. There are three marketing areas in the Medford district: Klamath, Jackson, and Josephine.

The plan as proposed by the district forester is reviewed by the state supervisor of the bureau and by the district advisory board, and any necessary changes made before the plan is adopted and made public some time in December.

Eighth Plan

The 1957 plan will be the eighth the bureau has prepared in which the location and approximate volume of each timber tract, and the calendar quarter during which it will be offered for sale, has been publicized prior to the beginning of

California Woman Killed in Accident

Newhall, Calif. —(U.P.)— Mrs. Anna Rae Strickland, 46, of Monterey Park, Calif., was killed Saturday and her husband and daughter injured critically in a three-car crash on U.S. Highway 99 near here.

Sheriff's deputies said the accident occurred when a south-bound car driven by Harvey Rogers, 22, of Monroe, Ore., crossed a double line on a downhill curve a half mile south of State Highway 79B. Roger's car sideswiped one car and then collided head-on with the Strickland car.

The victim's husband, Ernest, 47, and daughter, Mildred, 15, were taken to Newhall Community Hospital. The driver of the sideswiped car was not injured.

Contract Signed for East Pakistan Dam

Washington—(U.P.)—The International Cooperation administration has signed a \$3.5 million contract to provide construction designs and plans for the \$68 million multi-purpose dam in East Pakistan.

The contract, signed Friday, brought to \$12.7 million the amount of financial aid this

Chaumont, France — (U.P.) — More than 100,000 Roman Catholic pilgrims are expected to receive a five-centuries old special Papal dispensation Sunday. Pope Sixtus IV granted the dispensation to Chaumont 500 years ago.

country has contributed to the Karnafuli dam, the largest project ever undertaken in Pakistan.

Is That So?

What does the smallest of our deer, the tiny Key deer of Florida have in common with our largest of meat-eating animals, the grizzly? Or for that matter, with our crocodile? Or, with the tallest of our birds, the whooping crane? Or the largest of our birds, the condor? Or, our green turtle of soup fame? Or our swiftest and haughtiest of birds, the peregrine falcon?

tional Wildlife Federation has asked me to relay this carefully considered program to get concerted public and government action:

1. Help promote research to determine the best restoration methods;
 2. Help enforce Federal and state game regulations;
 3. Help halt the deliberate or accidental slaughter of endangered wildlife;
 4. Help establish wildlife refuges, game sanctuaries, and soil conservation programs;
 5. Help with public education programs;
 6. Help prevent the encroachment of established state, federal and private sanctuaries, forests, parks and refuges.
 7. Help effect pollution control.
- Help with these and enjoy that good feeling of knowing you are safeguarding for the oncoming generations those things which have been handed to you in trust.

Free: By special arrangement with the editors of the Encyclopedia Americana, my panel of judges will award each week to the reader who sends me the best true-life nature adventure, the best nature observation, or the best question on nature and wildlife, a complete 30-volume set of this world-famous reference work in a handsome Sealcraft binding. Each week new submissions will be considered. Sorry, I simply can't answer your many friendly letters. Please address your letters to: Is That So? care of Medford Mail Tribune, Box 575, Sausalito, Calif.

NO BREATHING EVIDENCE

Raleigh, N.C. — (U.P.) — The City Council showed it knew its law when the detective bureau asked for \$960 to buy a recorder so sensitive it can pick up breathing sounds. The Council decided that breathing "cannot be used for evidence" and knocked the item out of the bureau's budget request.

The final answer as to whether these species now backed into the corner of extinction will survive or not depends upon you and me! Will we rebuild what has been destroyed?

Except for the ivory-billed woodpecker, it is not a hopeless cause; look what we have done during the past half century—the buffalo, the Alaska fur-bearing seal, the sea otter—all of these near-extinct species are today staging successful comebacks. And all were doomed.

At the same time, keep in mind the urgency, the immediacy of doing something: the heath hen, the Merriam elk, the stellar sea lion, the passenger pigeon, the sea mink, the Great auk, the laborator duck, the Carolina Parakeet, all these are no more.
