The Medical Roundup

by *Walter Alvarez*

Emeritus Consultant in Medicine, Mayo Clinic
Emeritus Professor of Medicine, Mayo Foundation

How To Handle Mentally Ill

Many of the distracted persons in a family in which one member has become mentally disturbed can be greatly helped by a manual just put out by the National Association for Mental Health (1790 Broadway, New York City). It was written by Dr. Robert A. Matthews, and Lloyd W. Rowland. Persons desiring a copy should write to the Association — not to me.

psychotic or the insane must have great self-control and great patience and understanding so that he will not get angry when the man becomes argumentative or even insulting. One should never get into an angry argument with a psychotic person. Neither should one agree with a paranoiac when he says that a man on the next farm is beaming radar at him. One should agree that the patient is disturbed, but one can quietly suggest that there may be some other explanation for this.

Dr. Alvarez hopes his readers will understand that it would be impossible for him to answer requests for information or to attempt to diagnose by mail. (Revised by The Register and Tribune Syndicate, 1956)

War 'Vets' Average 38½ Years of Age

Washington — (U.P.) — The Veterans Administration gives 38½ as the average age of the more than 22,000,000 living U.S. war veterans.

At one end of the roll, the VA said, is a 109-year-old Civil War soldier, and at the other end are youths under 18.

The lone Civil War veteran is Albert Woolson, of Duluth, Minn., who was a drummer boy in the Nashville campaign. He is the sole survivor of 2,213,000 men who fought for the Union cause.

According to a VA survey, the estimated number of living veterans from the various wars and their average ages are:

Korean Conflict — 4,346,000

Pruning, Fertilizer Key To Blueberry Production

Geneva, N. Y. — (U.P.) — Early pruning and the use of proper fertilizers are the keys to successful blueberry production, according to fruit specialists at the Cornell experimental station here.

Pruning should take place early in spring before the buds open. This prevents over-bearing and keeps the bushes from becoming too dense and twiggy.

Tests at the experiment station have demonstrated that fertilizing with ammonium nitrogen promotes much better bush growth than the use of nitrogen in nitrate form.

Bad Handwriting Hinders Students

Chicago—(U.P.)—If you failed your June exams this year, it might be due to "low grade" handwriting.

A recent survey showed that no matter how objective the average professor tries to be in marking papers, a good measure of hostility against students with illegible or messy handwriting inevitably creeps into the professional outlook.

Also, such writing will result in unconscious penalties against the student.

The survey assessed teacher attitudes toward handwriting in colleges and universities in all parts of the country.

All teachers agreed that they are inevitably annoyed at the person who hands in sloppy looking work, and said their attitude in marking was definitely affected.

An assistant professor of medicine at Northwestern said: "Teachers tend to become impatient with illegible scrawls and despite due diligence, they may miss meanings of paragraphs and sentences as a result of such impatience."

A professor of psychology at Harvard said, "Handwriting is getting worse—I have a hard time reading my own."

According to the survey, the liberal arts student is the worst offender in the matter of handwriting. The business, journalism and law schools are stricter in their handwriting requirements.

Strange As It Seems

THE LATE DR. HARVEY W. WILEY—FATHER OF THE PURE FOOD AND DRUGS ACT OF 1906, RECEIVED HIS BACHELOR OF SCIENCE DEGREE AT HARVARD UNIV. AFTER HE HAD TAKEN HIS M.A. DEGREE AND HAD GRADUATED FROM THE INDIANA MEDICAL COLLEGE.

LARRY CHENEY, 30 years old, BECAME A PITCHING SUCCESS BECAUSE HE HAD A LIVE DRIVE BROKE HIS LEFT FINGER AND WRITING HIS "S" IN HIS STYLE OF DELIVERY.

A 10-OUNCE POCKET-SIZE SOLAR-POWERED RADIO THAT WILL OPERATE CONTINUOUSLY IN DAYLIGHT AND DARKNESS, WITHOUT RECHARGING!

(G.E. Electronics Lab., Syracuse, N.Y.)

Fine Leaves Little Profit in Car Sale

Grand Rapids, Mich.—(U.P.)—A young man whose cars were ordered off the road because it had so many mechanical defects was ordered to pay \$18,350 fine and costs when he pleaded guilty to driving with faulty equipment.

After his appearance in police court, the man revealed he was on his way to the junk yard to sell the car when he was stopped by a police safety check crew.

"I get \$20 for the car but with this fine, I'll have just about enough for bus fare home."

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little **FASTETS** on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, sticky, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get **FASTETS** today at any drug counter.
