**Misunderstanding
Results in Error**

A misunderstanding in compiling the final 1956-57 Jackson county budget was made Saturday, with the result that the total given was \$120 more than the approved figure, it was pointed out today by County Commissioners Chaester Wendt and L. G. Morthland.

The corrected budget totals \$2,645,269.07. Wendt and Morthland said the misunderstanding arose over the sheriff's salary. At the end of the budget hearing last Friday, the budget committee approved \$5,400 as the sheriff's salary. The commissioners said the figure was announced, incorrectly, as \$5,520 Saturday morning. The error was subsequently corrected and the sheriff's salary now stands at \$5,400 as was originally approved, they said.

The revised budget shows the sheriff's salary has been increased from last year by \$400. Also receiving salary increases this year are six other elected officials, 10 sheriff's deputies, chief deputies in three other departments, two county farm home superintendents and two road department employees. This year's budget calls for no tax levy.

**Sanitation Officials
Announce Reminder**

County sanitation authorities today reminded residents to wrap all garbage before placing it in garbage cans and to keep lids tightly placed on garbage containers.

They said a larger than usual outbreak of flies is now apparent in the county. In a recent tour of the county, officials noted many improperly covered garbage cans. They stated this, combined with a more moist atmosphere than usual, increases the fly population.

If the flies are not controlled now, they warned, they will become a really serious problem when fruit harvest starts. The sanitarians urged residents to further help control the insects by use of any general fly spray.

**Tourist Packet Cover
Wins National Award**

The newly developed tourist packet cover designed by the tourist and convention committee of the Jackson County Chamber of Commerce has won the highest merit award on a national scale for originality and execution in specialty packaging envelopes.

The award, directed to Ron Gande, representative of the Mailwell Envelope company and a member of the tourist and convention committee, was made by the Envelope Institute of America in competition with specialty packaging envelopes.

The packet cover is the first of several pieces of literature being developed by the Chamber's tourist and convention committee under the direction of Bert Pree. A county map showing tourists attractions and fishing and hunting locations is being prepared to go with a folder on Jacksonville and facts and figures of Medford and Jackson county.

Chamber officials said by the end of this year, more than 100,000 pieces of literature will have been printed new or reprinted for distribution. The literature includes information for prospective new residents as well as for tourists and conventions.

**Deed Filed for Sale
Of Mining Claim**

Mrs. Capitola Pence, Medford, has filed a quitclaim deed relinquishing ownership of Capitol A mining claim west of Jacksonville, according to records in the county recorder's office.

Mrs. Pence sold the claim July 2 to Adolph P. and Beatrice J. Martin and Brice and Valerie M. Adams. Records also show that Allen S. Moe, Arnold Larson and Donald Gresser, Grants Pass, have filed a location notice for a uranium mine. The claim is located in the Gold Mining district, northwest of Sams Valley.

**Construction of
12-Inch Main Starts**

City crews started construction of a 12-inch water main on Oakdale ave., from Main st. to Second st. Monday, according to Robert Lee, water superintendent.

The water main will also be constructed on Second st. from Oakdale st. to Woodstock st., and on Woodstock st. from Second st. to Haven st.

Lee said the new main will serve as a trunk line and feed lateral lines in the district. Purpose of the new water main, he said, is to distribute larger quantities of water to more areas in the distribution system.

The new water main will intersect 12-inch water lines on Haven and Main sts. and will increase the amount of water available to the west side of town, Lee said. The operation should be complete in four weeks, he said.

City crews completed construction of a 12-inch water main on Eighth st. from Orange st. to Oakdale ave. last week, Lee said. Construction of a six-inch water main on Broad st. from Jackson st. to Clark st. will begin Thursday, he added.
