

Effort To Change NEA Resolution on Integration Ended

Portland—(U.P.)—All efforts to change a National Education association resolution on integration in schools have apparently been given up.

The 31 resolutions released by the resolutions committee yesterday made no concession to demands by a number of Negro and white members in a Tuesday hearing that the organization condemn the dismissal of teachers for racial or religious reasons, and brand such discrimination as violation of academic freedom.

No organized opposition appeared likely today when the resolutions committee makes its recommendations on the convention floor here. Today was the last day of the educators' convention, which opened in Portland last Sunday.

The present resolution calls integration simply a "process which concerns every state and territory in our nation" and urges "all citizens to approach this matter . . . with the spirit of fair play and good will . . ."

The resolutions committee turned thumbs down yesterday on a resolution proposed by the New York delegation that the NEA cancel its teacher tours to Arab countries as long as those countries bar persons of Jewish descent.

London—(U.P.)—Last February's crash of a British troop transport plane in Malta in which 50 persons died was caused by engine failure and faulty pilot judgment, a court of inquiry ruled Thursday.

What is love? "Tis that delightful transport we can feel. Which painters cannot paint, nor words reveal. Nor any art we know of can conceal. —Paine.

More than 40,000,000 people in this country own and operate cameras. Twenty-eight million possess and play some kind of a musical instrument. So, if you can think of something different that will interest camera fans and musical enthusiasts, you should do fine financially. I have never been a photographic fan. Am very fond of music but play no instrument. I think I have been missing something. Guess I'll buy a camera and a player piano. Instead of the player piano, I might get a hurdy-gurdy. One of those instruments used by the street musicians of the yesteryear. In addition to amusing myself, I could throw a party at which I played my street organ for dancing. I might even rent a monkey for the occasion. I could play such tunes as "Sidewalks of New York," "Sweet Rosie O'Grady," "Bicycle Built For Two," "Every Night In Central Park," "She Was Happy 'Til She Met You," "We All Went Home In A Cab" and "Tommy Make Room For Your Uncle." And so on.

Remembering What is your earliest memory? How far back can we average person remember? That question was being discussed at a party the other night. One fellow claimed he could remember things that happened when he was one year old. A woman said she recalled events that occurred when she was two years old. I said, "My first memory is that when I was three years old and on an ocean liner en route to England a steward brought us

some strawberries and cream to our cabin." Then a nearby blonde spoke up and said, "I knew it! I knew that Ed Durling's first memory would be either about food or a horse." Why do those blondes keep picking on me? I always speak well of them. Well, nearly always.

Asking Queries from clients. Q. What does it indicate, if anything, when a bachelor in writing to a girl always uses green ink? A. It has been claimed that green is the proper color of ink to use for love letters. Q. How big can a position be and still be eligible for the position of airline stewardess? A. The maximum height and weight for the position you mention is 5 feet 8 and 150 pounds. Age limit is 27. Most airlines require that their stewardesses be bachelorettes. However, some accept the applications of widows and divorcees. Q. What was the name of the lum in which George Raft kept tossing a coin up and down in his hand while guarding the entrance to a speakeasy? A. That lum was titled "Night After Night." Was the first Raft appeared in. Was also the picture in which Aiac West made her lum box.

Let It Right What is the right way to pronounce the name of Notre Dame University, South Bend, Ind.? That is a question constantly discussed. I am informed by an alumnus that president rather than the correct pronunciation is "Notre Dame." I am not going to argue with rather Cavanaugh's decision. When returning to the university in Indiana I will say "Notre Dame" out when discussing that cathedral in Paris I will say: "Notre Dame."

do they Say Gemini (July 22-June 21) females have remarkable memories, are very difficult to deceive and recall mistakes their husbands made 10 or 15 years ago. The Gemini girls are very curious, are enthusiastic gossip column fans and incurable flirts. Cancer (June 22-July 23) women are excellent cooks and feed their husbands well if not wisely. They are always trying out new recipes on their spouses and are inclined to over feed them. The Cancer girls are very loyal. They are "one-man" women.

Kidnap 'Victim' Foils Reconciliation Move

Houston, Tex.—(U.P.)—An estranged wife's fantastic scheme to get her husband back by staging a fake kidnaping blew apart Thursday night when the "victim" turned up and innocently told the whole story.

Eight-year-old Cathy Faris, the kidnap "victim," was spotted on a street corner, climaxing a 24-hour search by police and neighbors who feared she had been taken against her will.

Cathy said she had been hiding for 20 hours in a closet at her grandmother's home even as police questioned the grandmother about her disappearance.

Police immediately jailed Cathy's foster mother, Mrs. Eunice Faris, the grandmother, Mrs. Ruth Crenshaw, and Mrs. Faris, brother, Ernest, and his wife.

Police said the entire kidnaping was a "fake." Mrs. Crenshaw told police the whole scheme was cooked up by Mrs. Faris in an effort to effect a reconciliation with her husband, Dr. John Faris.

SHADY COVE-TRAIL Fourth Activities Vary

By EVALYN P. WATSON

Shady Cove-Trail—The correspondent in talking with people in this area finds that while everyone looks forward to the 4th with great anticipation it is celebrated in various ways. For some it is a quiet day of rest at home from the regular grind of the workday week and coming in the middle of the week gives Dad a chance to catch up not only on his relaxation but also some of those odd jobs around the house that his wife has stacked up for him. Some celebrate with a dance, picnic or party the night before knowing that the 4th can be a sleep-in morning.

Others take to the beach, mountains, drag out the old fishing pole and hie to the nearest mountain stream or the good old Rogue, take a family picnic and go to Casey state park, or many of the other pleasant picnic grounds in the area. For others the 4th means the start of a long vacation trip planned to take in the extra holiday and others welcome relatives or friends as guests in their homes. Only a few seemed to give a passing thought to the real meaning of the holiday in regard to the independence of the nation being some intent on squeezing every minute of enjoyment out of the holiday.

Some of the visitors to the area over the holiday were Mr. and Mrs. Sheldon Reeves of Seattle who spent several days visiting Mrs. Reave's uncle and family, Mr. and Mrs. Dolf Larson of Shady Cove. They left July 5 for San Francisco and plan to stop by for a longer visit on their way home.

Dr. and Mrs. A. J. Loeffler have had Mr. and Mrs. Bill Yerkey and daughter, Melinda, of Lancaster, Calif., former residents of Trail and one-time owners of California-on-the-Rogue, spending their vacation with them. Bill Yerkey is now in the real estate business in Lancaster. The Loefflers also have their granddaughter, Sue Loeffler, of Lido Isle, Calif., with them.

Larry Powell, grandson of Mr. and Mrs. Frank Fagalde of Shady Cove, who stayed with them this past year and attended the Shady Cove school graduating from the 8th grade, left this week for Santa Monica where will join his mother and brother to go to Germany. His father, Stewart Powell, who is in the Army special services, is already there.

Mr. and Mrs. Sidney Brown of San Francisco are spending their two weeks vacation with Mrs. Brown's parents, Mr. and Mrs. George Scott of Shady Cove. George and Sidney made a fishing trip to Diamond lake on Tuesday where Scott caught the largest trout so far this year in Diamond lake according to the state game commission. Their catch was 6 trout with the smallest one measuring 15 inches and the prize trout measured 17 inches.

Mr. and Mrs. Ed Leaming are expecting Mrs. Leaming's father, Garret Zuiderweg, from Sheldon, Iowa, on a visit soon.

Mr. and Mrs. Ralph Watson of Trail have had Mrs. Watson's sister and husband, Mr. and Mrs. Tom Wylie, of Sacramento, Calif., and Mrs. Watson's cousin and wife, Mr. and Mrs. Ted Streiff, of Concord, Calif., visiting them. Many Chemical Elements Held Still Undiscovered

Berkeley, Calif.—(U.P.)—Noel Laureate Prof. Glenn T. Seaborg predicts there may still be many undiscovered chemical elements. Seaborg directed much of the University of California's research that has expanded the list of known elements from 92 to 101. But Seaborg said it probably will be impossible to identify chemically any element beyond 105. He explained the elements beyond 105 would be so unstable as to decay before they could be scientifically studied.

Rights of Indians Argued in Water Suit

San Francisco—(U.P.)—Special Master Simon H. Rifkind heard oral arguments today on a plea to allow 85,000 American Indians to be represented by their own lawyer in the Colorado river water suit. A motion to represent the Indians was filed earlier by Norman M. Littell on behalf of the Navajo Indians. He claimed the federal government would not or could not properly defend their rights.

A government attorney, David R. Warner, argued that the United States is authorized by law and committed by tradition "to represent the Indians and Indian tribes in litigation affecting their property rights."

GOODIES RING SOUGHT Johannesburg, South Africa—(U.P.)—Sweet toothed burglars raided a factory here Wednesday night and stole a quarter-million pieces of chewing gum, 33,000 boxes of cough drops, and 60 bags of sugar.

Both Sides Stand Pat On Steel Negotiations

Pittsburgh—(U.P.)—Negotiators for the United Steelworkers and the basic steel industry today stood pat on their pre-walkout bargaining strategy, showing no apparent willingness to resume bids to end the paralyzing deadlock.

As the strike of 650,000 mill workers entered its sixth day, it seemed left to the Federal Mediation Service to schedule joint negotiations. The labor-management representatives last met together Saturday, six hours before the walkout began. Joseph F. Finnegan, mediation director, indicated he would not necessarily wait for an invitation to set up joint talks. After separate "exploratory" meetings with union and industry officials here Thursday, Finnegan said he would contact both sides "early next week."
