Gold Firms Denied New Trial by Court

Washington —(U.P.)— The U.S. Court of Claims today denied a Justice Department motion for a new trial in the case of six gold mining firms which won claims against the government.

The motion for a new trial was denied by a 3 to 2 vote.

The court ruled in February that the firms should be paid for losses incurred during the time the mines were closed in World War II at the order of the War Production Board.

The mining activities of the firms were curtailed by the board. The order required so-called non-essential mines to cease mining operations, except maintenance.

The firms involved are Homestake Mining Co., a California firm; Alaska-Pacific Consolidated Mining Co., Washington; Idaho Maryland Mines, Inc., Nevada; Bald Mountain Mining Co., South Dakota; and Ermont Mines, Inc., Oregon.

Oregon, Washington Set Permanent Border

Vancouver, Wash.—(U.P.)—The state of Oregon lost some territory yesterday, but then it gained some too.

The bloodless exchange of land with neighboring Washington State came about at the conference table where representatives of the two states worked out a plan for a permanent boundary between the two states.

In the past, the official boundary had been based on channels and islands in the Columbia river which have varied and shifted up to a mile in some cases since Oregon was admitted to the union.

Under terms of the agreement reached yesterday by the legislative committees of both states meeting at Vancouver, Wash., the new boundary will follow the center channel of the Columbia substantially but will be based on permanent landmarks.
