

Noreen Kelly to Take Part In New Footlighters Drama

Miss Noreen Kelly, who won her first part with the Medford Footlighters the summer she graduated from grade school at St. Marys, is now cast in her eighth role with the group. The play, "Late Love" directed by Bob Stedman, will be presented at the Fairgrounds theater for five nights beginning July 24.

of self assertion during the three acts of the Rosemary Casey comedy.

Her first role with the local theater group, Fifi in "Love Rides the Rails," was followed by leading roles in "Male Animal," "Only An Orphan Girl," "Emperor's New Clothes," "Papa Is All," and "The Valiant. The latter was one of three the theater took on a barnstorming tour of granges throughout the county one summer. Later she played in "George" which went "on the road" playing before service clubs throughout the county, after the theater presentation.

When she was 15, Miss Kelly played her first Shakespearean Festival role, that of Jessica in "The Merchant of Venice," and the same summer did the young boy, Donalbain, in "Macbeth." The next summer she played Blanche in "King John."

At Marylhurst college she played leading roles in "Star dust" and in "Beaumarchais' Barber of Seville" and appeared in the French language version of Moliere's comedy, "Les Precieuses Ridicules." She also played a role in "The Enchanted Cottage" and in several one-act dramas. Participating fully in all phases of dramatic production on the campus, she served one term as president and held other offices in Delta Theta, the college drama society.

SHOULD'VE STAYED HOME
Los Angeles — (U.P.) — Hard-working safecrackers who broke into the Coblerly Car Co. here have good reason to know that crime doesn't pay. After lugging a heavy safe down a flight of stairs to a workshop and burning it open with an acetylene torch, they found it contained \$52.

A female mouse will produce 60 or more offspring during a summer season. And, at the age of two months, the offspring start reproducing.

Negotiations To End Steel Strike In Weekend Recess

Pittsburgh — (U.P.) — Negotiations toward ending a crippling two-week strike by 650,000 basic steelworkers entered a week end recess Saturday with the nation's top labor trouble-shooter reporting the strike's status to officials in Washington.

When two days of talks wound up in Pittsburgh shortly before noon Friday, United Steelworkers President David J. McDonald told newsmen, "There is absolutely no change in the situation."

McDonald and other union officials met for two and one-half hours with representatives of the industry's Big Three — U. S. Steel, Bethlehem and Republic Steel corporations — before taking a break until 10:30 a.m. (EDT) Monday.

Joseph F. Finnegan, director of the Federal Mediation and Conciliation Service, did not sit in on the joint union-management session. He met later with company negotiators who told him what went on behind the closed conference room doors.

Before leaving with two aides for Washington for conferences with Labor Secretary James Mitchell, Finnegan said he still considered the strike and its effects on the country's economy "serious."

"The President is well informed on developments," he said, but added that he did not feel the dispute has created a national emergency as yet.

Neither Side Wavers
Since the strike began July 1, neither union nor management has wavered from their stand. The industry offered a five-year contract with annual wage increases averaging 7.3 cents an hour plus fringe benefits.

The USW dismissed the offer as "highly inadequate." McDonald blasted management for try-

They'll Do It Every Time

IMPORTED FUEL CHEAPER
Tokyo — (U.P.) — U.S. Army installations in Japan will switch from Japanese coal to imported fuel oil soon to cut heating costs, it was announced Saturday. The Army said the change resulted from the recent rise in the price of Japanese coal, coupled with a regulation requiring use of the most economic method.

A GOOD ARGUMENT
Edinburg, Ind. — (U.P.) — The town council voted to buy five new chairs immediately after Councilman Charles Nearhouse brought the matter to the body's attention in a startling manner. Nearhouse was dumped onto the floor after his chair collapsed.

ing to finance a billion-dollar expansion program with the "sweat and blood of the men of steel."

Effects of the strike continued to be felt through the nation with between 65,000 and 90,000 rail, truck and water transport workers idled by the fall off in steel shipments. About 40,000 soft coal miners also have been furloughed or are working shorter work weeks.

Langley Declines Invitation to Appear

Portland — (U.P.) — District Attorney William M. Langley Friday declined to accept the invitation of the Multnomah county grand jury to appear before it without the protection of immunity, and claimed that as an accused he could not legally be a material witness.

Chief of Police Jim Purcell was subpoenaed and spent several hours Friday closeted with the jury.

In a letter to the jury, Langley claimed that his legal rights were being denied and that he would not appear before the jury. He charged that Attorney General Robert Y. Thornton, who is directing the vice probe, was not interested in a fair and impartial investigation. Langley said that since the grand jury had advised him he was an accused person, that made him an incompetent witness.

SO EASY TO SERVE ...

Jorgensen's **fiesta** ICE CREAM

A GRAND Summertime TREAT!

Always Ask for "Jorgensen's"

Yes, you can write your own ticket for real summertime enjoyment — for every member of your family. SAVE WORK, too when you want to keep housework at a minimum during hot summer weather. Just serve LOTS of rich, luscious, flavorful ICE CREAM — and be sure it's JORGENSEN'S, for the very BEST. Just think of it — tasty sundaes, parfaits, splits; topping for pie, cake or fruits. You'll find Jorgensen's offer a wide selection of flavors — the favorites of every member of your family. So, be sure to take home plenty of convenient-sized cartons of Jorgensen's FIEST ICE CREAM for really GOOD eating ANYTIME.

TAKE THE

"DIE"

OUT OF DIETING!

"I'd rather die than reduce," confided the fat lady to her friend, as she sank her teeth into a second generous chunk of chocolate cake.

An exaggerated statement? Sure...but no one likes the draggy, knocked-out feeling that results from harsh dieting. Yet many people seem to reduce comfortably, seem never to lose strength and vitality while they lose pounds.

These wise "taker off-ers" get plenty of protein, vitamins and calcium — all essential food elements — while reducing their fuel-fat intake. In short, they drink plenty of milk.

When you reduce...

DRINK 3 GLASSES OF MILK EVERY DAY!
