Fresh Nectarines Popular in Several Ways

A nectarine is a smooth-skinned peach, not a cross between a peach and a plum as many think. Also contrary to popular belief, nectarines are not a new fruit. Their history is as ancient as that of the peach and that goes back to biblical times.

California growers practically the entire commercial crop of this delicate, aromatic fruit which is used in any of the ways in which peaches are used.

Especially popular for eating out-of-hand, nectarines also are stewed, baked in pies, cobblers and the like. They're made into preserves, jams and are very good in ice cream. They too are canned, frozen and dried.

Figure on one pound of nectarines for each four servings. Store, single layered, in refrigerator.

Ambrosial Melons Good Every Day

Our long growing season brings us ambrosial melons from May to December with a super abundance of cantaloupes and watermelons which are found in practically every refrigerator for enjoyment at breakfast, mid-morning, lunch, mid-afternoon, suppers and for night snacking.

Honeydews, honey balls, Persians are superb eating and presently the Cranshaws and casahs will be coming along.

Superb for eating with only a sprinkling of salt and with lemon or lime wedges alongside, most melons combine with others in salads, cubes or wedges to make handsome, healthful fruit cups, salads and dessert bowls.

Vanilla ice cream often fills the smaller cantaloupe halves for a deluxe dessert, sometimes sprinkled with coconut or chopped nuts or topped with a berry sauce.

Melon Servings. Figure on two servings from a small cantaloupe, four to six from larger melons with four to eight generous servings from honeydews and honey balls. An average watermelon is good for 15 to 20 servings. Many markets now offer quartered and halved melons for the smaller family. Chilled, of course!

Enjoy Seedless Grapes. Seedless and Cardinal grapes, forerunners of the Fall varieties are coming into markets in great abundance, of good quality for any time and all the time eating. California produces close to 95 per cent of all domestic grapes. Leading raisin variety, Thompson seedless grapes are the Number 2 fresh variety; Emperor being first among the table grapes.

Choose plump grapes that are firmly attached to stem. When you get them home, examine and snip out with the scissors any damaged grapes. Refrigerate or store in cool dry place where air circulation is good, on shallow trays. Sort frequently.

Wash grapes just before using. Dampness will quickly destroy them. Mostly eaten out-of-hand, these are also used in salads, fruit cups and as stewed fruit.

Fresh blueberries or huckleberries in any form are a treat; raw with sugar and cream, in jam, stewed, or in pie, pudding, shortcake, tarts or breakfast muffins.

Blueberries are fine when combined with other fruits in a fruit cup, unexcelled in ice cream or when used as a dressing like this one for serving warm over ice cream, pudding or cake. Six generous servings.

Blueberry Sauce. In a saucepan, combine two tablespoons quick-cooking tapioca, two cups fresh blueberries or huckleberries, one-half cup granulated sugar, dash of salt, dash of cinnamon and 1 1/2 cups water. Cook over medium heat, stirring gently until mixture comes to a boil. Add two teaspoons lemon juice, remove from heat; cook 15 minutes, then stir before serving.

Peach Pork Chops. Team pork chops with fresh peach halves in barbecue sauce for family treat. For each four servings, figure on four pork chops, four peaches, halved.

Brown pork chops on both sides in a little hot fat. In a mixing bowl, combine one-fourth cup chili sauce, three tablespoons lemon juice, 1 1/2 tablespoons brown sugar, one tablespoon grated onion, one teaspoon prepared mustard, one-half teaspoon Worcestershire sauce, one-fourth teaspoon chili powder and one-third cup water. Pour mixture over chops. Cover closely and cook over low heat 45 minutes to an hour or until tender. Turn once during cooking.

Stud each of eight peach halves with two or more cloves. Place peaches around chops, spoon some of the barbecue sauce over them, cover and cook five minutes longer to heat peaches thoroughly. Spoon off fat in pan and serve chops and peaches with sauce poured over them.

Poultry, Beef, Salad Makings Among July Plentifuls

Poultry of all kinds, fryers, broilers, stewing hens and turkeys, continue in top place among plentiful supplies of food-stuffs with prices surprisingly small. Many will fry several chickens figuring on enjoying them cold a second day with bread and butter sandwiches, a tossed salad, fresh fruit or melon and a cold beverage. Take it easy. Broilers are quickly broiled outdoors or indoors in oven for eating outdoors. Turkeys are coming in all sizes for broiling or frying and on up to big birds for big family or community, lodge, church or other special event. If you've freezer space, put in poultry now.

Beef bargains continue with braising, boiling, stewing cuts even lower this week. It seems as one scans newspaper advertisement and reads the display signs in markets. Ground beef whether the usual hamburger grind or the more tasty ground round or sirloin invites spaghetti-and-bun, meat loaf, spaghetti and meatballs eating at very reasonable cost.

Dairy products and eggs are good buys. Step up the children's milk, drinking with milk shakes. You may be surprised to learn that the children like buttermilk. Cottage cheese which is packed with good nutrition

Man Changes Name But He Rues the Day

Detroit — (AP) — Stanley L. Hoyle, 43, born Stanley L. Hojnacki, rued the day he had his name changed, but he died before his original name was restored.

Probate Judge James H. Sexton dismissed a petition by Hoyle asking that his name be changed to Hojnacki after he was notified of Hoyle's death.

In the petition, Hoyle said the decision to give up the name Hojnacki 10 years ago "weighed on my peace of mind."

LEGAL NOTICES

ORDINANCE NO. 4197
AN ORDINANCE designating the assessment on property benefited by the use of a water main on Barnett Road from a point 1,252.0 feet West of the line between Donation Land Claims numbered 50 and 51, Eastern to a point 1,805.8 feet East of the point Eastern line of Donation Land Claim No. 51, said point being at the Western right of way line of Murphy Road at a lateral water main, and directing the Recorder to enter a statement thereof in the Deed and City Liens and publish a notice thereof as required by the Charter.

THE CITY OF MEDFORD DOTH ORDINANCE AS FOLLOWS:

Section 1 Whereas the City of Medford did heretofore cause to be constructed and laid a water main on Barnett Road from a point 1,252.0 feet West of the line between Donation Land Claims numbered 50 and 51, Eastern to a point 1,805.8 feet East of the point Eastern line of Donation Land Claim No. 51, said point being at the Western right of way line of Murphy Road and the cost of said water main has not been paid and the Council is of the opinion that said water main should be used for the purpose of fronting on said streets wherein said water main has been laid as a lateral water main without materially interfering with the use thereof for the purpose for which it was originally laid and

WHEREAS the Council did after said water main was laid, declare by resolution, its intention to assess the property fronting on said streets within which said water main was laid and which it proposed to permit the owners of adjacent property to use for lateral water main purposes and did, in said resolution, designate the amount per front foot which it proposed to assess against said adjacent property and

WHEREAS said resolution was duly posted and published as required by the Charter and whereas a meeting of the Council was held at the time and place fixed in said resolution for the purpose of considering any protests against said assessment, but no protests were made at such time or at any time thereafter and the Council having considered the matter and deeming that the use of said water main for lateral purposes, as aforesaid, is of material benefit to the said City and that all of the property assessed thereby will be benefited thereby to the amount of the assessment herein levied against the same, and

Whereas the Council has determined that the sum of \$2.25 per front foot is a proper and reasonable amount to be assessed against the property fronting upon the streets within which said water main was laid, now therefore, each parcel of property heretofore set forth, and described as hereby, found to be benefited by the use of said water main as a lateral water main and each thereof is hereby assessed the amount set opposite each respective description for the use of said water main for lateral purposes as aforesaid.

ASSESSMENT SCHEDULE

- Assessment No. 1
Walter J. and Dorothy A. Young
The Southern 100 feet of the property described in Jackson County Deed Records, Volume 414, Page 236. Frontage—178.00 feet. Rate per foot—\$2.25. Amount due—\$396.00.
- Assessment No. 2
Eugene Paul and Ruth A. Eberhart
The Southern 100 feet of the property described in Jackson County Deed Records, Volume 270, Page 232. Frontage—178.00 feet. Rate per foot—\$2.25. Amount due—\$396.00.

New Drug Filling Need In Veterinary Surgery Chicago—(UP)—A new drug is fulfilling a long need for a relatively risk-free muscle-relaxing agent for use with anesthetics in veterinary surgery, a professional journal reported. The Journal of the American Veterinary Medical Association said that succinylcholine iodide "has provided a new approach to the problem of anesthesia of large animals in veterinary surgery." The article in the journal said the drug has been used routinely on about 500 horses without toxic reaction or other complications. It also has proved valuable in surgery on dogs, the journal said.
