No Reason to Wait Any Longer!

There's not much question about what this man and his young son have on their minds. They're thinking about Cadillac—and about how wonderful it would be to have one in their own driveway!

And because dreams of a Cadillac are hard to put aside, we suspect that it won't be too long now before we'll have an opportunity to give them the facts about Cadillac ownership.

And when that time arrives, they'll find that we have some wonderful news for them about how practical Cadillac ownership has recently become. We will explain that it is now possible to become the happy owner of a 1936 Cadillac for little more than the cost of far lesser cars.

We will also tell them how economical a Cadillac is to operate—and how extraordinarily free it is from the ordinary requirements of service. And we will show them how, at resale time, Cadillac returns a greater share of its owner's original investment than any other motor car.

But the best news will be yet to come. For then we will talk about the generous allowance we can give them on their present car—and how short the waiting period is on the Cadillac of their choice.

They will find, we feel certain, that they have lost their last logical reason for waiting any longer to enjoy a new Cadillac.

Incidentally, have you considered how wonderful a Cadillac would look in your driveway? If you have, then we sincerely urge you to come in soon and get the facts.

We'll be waiting for you with the car and the keys—and a story too wonderful to resist!
