

Fall in Bathroom Fatal To Dallas, Ore., Infant

Dallas, Ore. (UPI)—A 21-month-old Dallas boy died here Friday after a fall in the bathroom of his home.

The lad, Randy LaVern Derksen, son of Mr. and Mrs. Leonard Derksen, developed convulsions from the fall and was rushed to a hospital where he died.

Funeral services will be held Monday.

Farm Prices Show Decline of 1 Per Cent in Mid-July

Washington (UPI)—Farm prices dipped one per cent in mid-July for the first downturn since December.

Republicans had hailed the steady six-month rise which began in January as a boon to their presidential election chances this fall. But the Agriculture Department's report Friday of the mid-July decline was

expected to cause some uneasiness, especially about the reaction of Midwest farmers who were hit hard financially last fall by the lowest hog prices in 14 years.

Undersecretary of Agriculture True D. Morse appeared to be undisturbed about the farm price decline, however.

"We can expect fluctuations

in this harvesting and marketing season," Morse said. "The strength that was developed in the last six months can be expected to continue."

Pounce on Decline

Democrats were certain to pounce on the mid-July decline in their attack on Republican farm policy.

The decline in prices received

by farmers, coupled with a slight increase in the cost of things farmers must buy brought the parity ratio down to 85 per cent, one point off the parity ratio of mid-June.

The department said low prices received by farmers for fruit, meat animals, and commercial vegetables were responsible for the decline. A sharp increase in potato prices and higher prices for milk and chickens were not enough to offset declines in other commodities.

The rise in production costs was the result of an increase in prices of family living items. Part of this increase was offset by a slight reduction in the seasonally adjusted index of farm wage rates. Prices paid for other farm production items averaged the same as in June.

Average hog prices for mid-July were \$15.20 per hundred-weight, compared with \$15.60 in mid-June and \$16.40 in July, 1955. Average beef cattle prices were \$15.40, compared with \$15.60 in mid-June and \$16.10 a year ago.
