

They'll Do It Every Time

By Jimmy Hatlo

IN THE BRIGHT, LIGHT PART OF TOWN, BOOMER, THE BUS PILOT, CALLS OUT EVERY STREET TWICE...

BUT OUT IN THE SUBURBS WHERE IT'S DARKER THAN THE TUNNEL OF LOVE, HE CLAMS UP!

On The Side

By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

Monday's child is fair of face, Tuesday's child is full of grace, Wednesday's child is full of woe, Thursday's child has far to go, Friday's child is loving and giving, Saturday's child works hard for a living, And a child born on the Sabbath day, Is fair and wise and good and gay. —Braz.

My heartfelt thanks to the many kindly and thoughtful subscribers who sent cards wishing me a happy birthday. It was a very happy one. I started off with a big birthday breakfast and kept on celebrating throughout the day. I had my favorite dinner preceded by a home made highball and concluded with an elegant Havana cigar (Churchill size). My girl friend claims my "birthday highball" is a quadruple. It really isn't. Is just an old-fashioned double.

Horses and Women

The ways of women in horse wagering are exceeding strange. Yet their "systems" are always paying off. Especially those which have no sense to them. In one day at Monmouth Park, N.J., a friend of mine, who had spent the night before poring over a racing form, didn't cash a ticket. His wife, who can't even read the form, had a wonderful day with these winners: Sara Kate paying \$55.80, Dr. Roberts \$8.80 and Air Prophet \$19. What is the lady's "system"? Well, sir, she plays all horses that have "R" as the third letter of their names.

Asking Questions from clients. Q. Was your mother red-haired? A. No. But my father was. My mother was a brunette. Q. Are boys or girls smarter in high school? A. During the freshman and sophomore years the girls are smarter and get better grades. In the junior and senior years the boys top the girls. This is because females mature faster up to the 15th year and then slide back a bit mentally until 18. Of course, the high school co-eds always think they are smarter than the boys. That's why you so often hear a teenager female say of some young man, "He is so immature."

Sobriety Test What sobriety test is used in your section for motorists charged with drunk driving? In London one sobriety test is asking

the allegedly intoxicated motorist to find a given name in the telephone book. Trevor Howard, British Thespian, was recently charged with drunk driving. He admitted having consumed three glasses of stout and two double whiskies but maintained he was perfectly sober. He successfully passed the "walking the chalk line" test. He was then given the E to K section of the London telephone book and asked to find the name of Dr. Kenneth Harris. This took Trevor two minutes and 40 seconds. The examining police physician said that was much too long. So he decided that Mr. Howard was intoxicated and unfit to drive an automobile.

Asides The number of young females who have changed their given names to Kim continues to increase. If this keeps up there will soon be more girls named Kim than those named Patti... Seventy-five per cent of steak is water. Seventy-five per cent of a potato is water. So says a man of science. Considering the price you now have to pay for a steak and baked potato restaurant dinner this is very depressing news.

Get It Right There is only one town in the U.S.A. named after Ireland's patron saint and that is St. Patrick, Mo. That's what I said. That was erroneous and it has cost me some stogies I can ill afford to lose at this time. There is a town named St. Patrick in Ohio. Do you consider yourself a well informed fellow? If so, tell quicker than a quarter of a flash what is the largest city in the United States named after a saint.

Boy Admits Theft From Barn in City Recently A 10-year-old Medford boy was remanded to juvenile authorities Wednesday after admitting the theft of a saddle, covered stirrups, bridle, tools and a bicycle from a barn at 838 McAndrews rd. Mrs. Alford Bendickson, 785 Waverly ave., Medford, owner of the barn, reported the theft on July 14, according to the Jackson county sheriff. Dead line Sunday Classified is at noon Saturday, 10 a.m. Monday for Monday, other days 5:30 previous day.

All Restrictions on Polio Vaccine Lifted

Portland — (U.P.) — The State Board of Health has ended all restrictions against commercial supplies of Salk polio vaccine in a move designed to increase lagging demand for the protective serum before the height of Oregon's polio season. The department warned that public apathy toward the vaccine could result in a polio epidemic similar to last year when there 449 cases and 14 deaths for the third worst year in the state's history. Removal of restrictions followed an announcement Tuesday by the U.S. Public Health Service ending all federal allocation of commercial vaccine to the states. Among persons 65 and over most of the women and one-third of the men are widowed, divorced or single.

Feeding the Family

By ZOLA VINCENT Food Editor

Boysenberry Pie Dessert Delight

Leading boysenberry crop in our part of the country is the beautiful boysenberry. Available briefly in the fresh state, major portion of the berries (estimated at 84 per cent) goes into frozen ready-to-bake pies, baked pies, bakery pastry rolls and the like... and into packages for home or commercial making of pies, preserves, tarts, ice cream, sherbet or whatever.

Here we make a pie using two packages of the fresh frozen boysenberries.

- 2 packages fresh frozen boysenberries
1 3-ounce package cream cheese
2 tablespoons milk or cream
1 9-inch baked pie shell
1 cup water
1 cup granulated sugar
3 tablespoons cornstarch
1/3 cup water
1 tablespoon butter or margarine
Red food coloring

Thaw berries slightly. Blend cream cheese with milk and spread evenly over bottom of baked pie shell. Crush remaining berries and combine with one cup water and sugar. Bring to boil; reduce heat and continue cooking until berries are soft. Strain and heat and add cornstarch which has been dissolved in one-third cup water.

Cook, stirring constantly until thickened. Add butter, lemon juice and few drops red food coloring. Cool. Pour over boysenberries and chill. Serve with sweetened whipped cream if you like.

Honey and Sour Cream Fine Fruit Dressing

Regal results from this simple blending of honey and sour cream that will keep delicate seasonal fruits bright and colorful; accent flavor. Keeps well. Make up ahead of time. Enough for fifteen servings.

Slightly mix two eggs in a saucepan. Combine one-third cup fresh lemon juice and one-third cup honey. If you put the lemon juice into a measuring cup, then add honey, it will flow easily when added to egg mixture. Stir while adding to mix well. Cook over low heat, stirring until mixture resembles a soft custard. Remove from heat; add 10 marshmallows that have been cut into small pieces. Stir until melted. Cool, fold in one-half pint commercial sour cream. Spoon over salad fruit mixture or arrangement.

Turkey Casserole Is Handsome and Hearty

This delicately sumptuous party casserole using turkey or chicken leftovers, cooked rice and apple sauce will make six generous servings. The different touch is plentiful canned apple sauce which gives tantalizing tang, helps mingle all flavors.

Make in morning. Reheat. Sauté one medium onion, sliced and one-half pound sliced mushrooms (or a four ounce can sliced mushrooms) in six tablespoons butter until light brown. Add six tablespoons flour, salt and pepper and mix to a smooth paste. Gradually add 1 1/2 cups chicken stock (fresh or canned); cook, stirring constantly until thickened. Add two cups canned apple sauce and mix well. Toss two cups cooked rice with two teaspoons poultry seasoning.

Arrange in greased casserole, alternating layers of rice, chicken and apple sauce mixture. Melt two tablespoons butter; toss with two cups soft bread crumbs; sprinkle over casserole. Bake in moderately hot oven, 375 degrees, 25 to 30 minutes.

Hot Breads from Grill

Prepare garlic or other seasoned bread, wrap in aluminum foil and heat at one side of the grill. Buns, rolls, muffins—just brush with seasoned butter or margarine and wrap in foil. Heat by letting them stand on the grill where heat is not too intense. Serve right from the foil, reclosing each time they are passed, to keep them hot.

Spice or Herb? Botanically, spices are the roots, bark, buds, seeds or fruit of aromatic plants which usually grow in the tropics. Herbs are the leaves of plants which grow only in the temperate zones. The American Spice Trade association now classes both types of products under the general term "spices."

Oven Barbecued Fish

Place two pounds fish steak—halibut, haddock, cod—in a shallow oiled baking dish. Sprinkle with two tablespoons lemon juice. Cover with your favorite barbecue sauce. Bake in hot oven, 400 degrees, about 25 minutes or until fish is tender. Baste frequently. Four generous servings.

Poultry Tops Plentiful List; Many Other Good Buys Given

Name it and you can have it. And the chances are that it will be on the list of plentiful with correspondingly reasonable prices.

Turkey tops the list of good buys for happy eating when fried, broiled, barbecued or roasted looking forward to a second or third days eating in praise-worthy ways. Turkey growers and distributors tell us that the crop is bigger than usual, earlier than usual; that turkeys are available in all sizes; that they come fresh and frozen, dressed or ready-to-cook. Five to 10 pounders can be fixed any way you like.

Chicken fryers, broilers and stewers are also abundant and likely to continue so for a while. Meat Situation. All fresh pork cuts seem lower in price than usual at this time of year. There are likely to be specials on fresh pork sausage which makes wonderful breakfast eating for a

Hormone Spray Due On Pear Orchards

C. B. Cordy, county agent for horticulture, today reminded orchardists that hormone spray should be applied to pear trees soon to prevent fruit drop.

He said the hormones are available in several forms and all are considered equally effective. The hormone takes effect about three days after application, Cordy said, and remains effective for about 20 days on D'Anjou and Comice; 24 days on Bartlett's and 30 days or longer on Bosc.

Hormone should be applied 24 days before the date harvest is expected to end. Twenty-five grams of hormone per acre should be applied on Bartlett's and Bosc and 37 grams per acre on D'Anjou and Comice.

Effectiveness of hormone spray varies on D'Anjou from year to year, Cordy said. He added, however, that crop saving in the years when it is effective more than offsets expense of the application in unsuccessful years.

Beneficiaries Listed For Teacher's Estate

Portland—(U.P.)—Beneficiaries of a \$1,000,000 estate left by a Portland school principal have been announced here by the attorney for the late Hopkin Jenkins, former principal of Jefferson high school.

Attorney Robert R. Rankin said Jenkins established a \$100,000 trust fund to provide higher education for needy youths. In addition, bequests were announced for Lewis and Clark college, \$15,000; Shriners Hospital for Crippled Children, \$10,000; and Portland grand lodge of the Masonic order, \$10,000.

change... maybe with good milk gravy? Hams and smoked picnics are reasonable. Beef cuts from the chuck, rounds and ground beef are featured in most markets. Consider cold cuts. Many families are quite content with an assortment of cold cuts and luncheon meats for make-your-own sandwich lunches with an iced beverage or milkshake, chilled melon or fresh fruit. Reasonable prices mark many canned meats and meat specialties.

Fish and Shellfish. Few shellfish but good variety in steak and baking fishes. Fresh fillet offerings include ling cod, rockfish, true cod, Dover sole, sea-bass. Pan-readies for good eating include rex sole, Idaho brook trout, sandbars. Plenty of lemon on the side!

Fruit displays offer cantaloupes, honeyballs, honeydews and watermelons for chilling. Thompson seedless and Cardinal grapes for out-of-hand eating. Nectarines are at peak. More peaches and plums coming in. Talk over freezing, canning and jamming plans with fruit man. He's glad to give you advance notice of season peaks and best buys.

Vegetable bins make meal planning easy. An abundance of cabbage, celery, corn, cauliflower, carrots, cucumbers, green beans, lettuce, radishes, green onions, green peppers, soft squashes. Tomatoes are variable in quality and price. The less expensive ones are ideal for cooking purposes.

Canned applesauce and cranberry sauce are exceptionally good buys. So is canned tuna.
