## Phone Service Is Operated by Polio Victim

Sandpoint, Ida. — (UP) — Mrs. Laura Bloxom, a pretty young mother of two daughters, established a business here with a flick of her finger.  
 That flick of the finger is almost the only movement she can make unaided. Mrs. Bloxom is a polio victim.  
 Late in January she began a personal telephone service in this northern Idaho city of 4,200. Her first customer was the Sandpoint Camera club, which hired her to call its members and inform them of a coming meeting. Nearly 100 per cent of the members, called by Mrs. Bloxom, at once then, her list of "clients"

has grown to include nearly all of the city's organizations and clubs. She also recently conducted a financial survey of some 50 business firms for the Chamber of Commerce. The job now keeps her busy nearly every afternoon.  
 Mrs. Bloxom was stricken with polio in September, 1950. A telephone operator for nine years before her illness, she heard about a similar phone service while she was a patient at the Elks Convalescent hospital in Boise and decided that was the job for her.  
 Using a regular operator's headset and a specially designed switch to make contact with the telephone exchange (she cannot lift a receiver or operate a regular key), she holds the telephone board on her lap and works from a list of phone numbers tacked to the davenport.

## Lutheran Minister Believes Every Year Should Be Leap Year

New York — (UP) — One young Lutheran minister believes it should be Leap Year every year.  
 The Rev. Leslie Conrad Jr., executive secretary of the Lutheran League of America, has proposed a "two-way street" in proposals, so that it would be proper for either sex to pop the question.  
 In an article in the current issue of Luther Life, the league publication, the pastor cited "the ever-increasing" problem of "mismatched mates."  
 Said he, "I am for changing our cultural pattern to such a degree that young ladies might have just as much freedom in choosing their husbands as hus-

bands have in picking their wives.  
 "... I'm for making it a two-way street, with the traffic going in either direction having the same privileges."
