

Roy Rogers Scholarship Winner

Roy Rogers left Wednesday morning for New York City from where he will sail on one of the Holland-American ships for The Netherlands. Mr. Rogers, son of Mr. and Mrs. Earl Rogers, 847 Pennsylvania avenue, has accepted a Fulbright scholarship for a year's study and research in that country in the field of electrical engineering.

The young man was graduated in June from Oregon State college, receiving a degree in electrical engineering, and since that time has been working for the Sylvania Electronics Defense Laboratory in Mountain View, Calif.

Last year young Rogers received an achievement scholarship from the Westinghouse corporation which provided summer employment at the firm's plant in the east, specialized training and an allotment for college his senior year.

Young Rogers was one of 18 honor students out of the 1100 graduates from Oregon State college this spring who were invited by President and Mrs. A. L. Strang to attend a luncheon which followed baccalaureate services. The event was held at the Corvallis Country club, with parents of the students also invited to attend. The young man was also an honor student during his enrollment at Medford Senior High school and was valedictorian of his graduating class.

Mr. Rogers is to spend two weeks at the Hotel den Hollander in Noordwijk-aan-Zee where he will attend orientation courses in the language of The Netherlands, and in the history and culture of the nation. He will then report at the Technical Institute of Delft for further study.

During the last six months Mr. Rogers has studied language with Miss Clara Slyt, native of The Netherlands and a student at Oregon State college, in preparation for spending the year abroad. Miss Slyt, a dietitian, is on the staff of Sacred Heart hospital in Medford for the summer.

Former Residents Visitors in Valley

The travelers were en route south after a trip to Canada. The New York State College of Agriculture suggests that cut flowers be placed in warm water rather than cold to prolong their beauty. Hot water—about bath temperature—moves faster in the stem than does cold water. Be certain the base of the stem is covered, but deep water is not necessary.

On The Side

By E. V. Durling

Steak and mushrooms continues a popular combination. Mushroom sauce is also high in favor. However, not with me. I don't want anything to do with mushrooms in any form. If you are fond of mushrooms be certain you consume the safe kind. There are two types of mushrooms so poisonous they can bring about your demise in a very brief period.

Sidelights

Cunard line captains are instructed to go dead slow in a thick fog and completely disregard schedules under such conditions. . . In New York city there is an employment agency devoted exclusively to securing positions for bookkeepers. In Manhattan the salaries of bookkeepers are from \$75 to \$100 a week. Seems to me a good bookkeeper should command a better wage than that.

Horses And Women

Are blondes more expensive to support than brunettes? The answer to that is something every young man should know. I have been informed by an authority on the subject of horses and women that natural blondes usually cost no more to keep than brunettes. However, blondes with bleached or dyed hair are somewhat more expensive. As for example, a permanent wave for a natural blonde or brunette is priced in some beauty shops at \$27. For a bleached or dyed blonde it is \$32. Also what is technically called "a touch and set" is \$10.50 for natural blondes and brunettes. For bleached blondes it is \$18.50. Our horses and women experts have been instructed to assemble more information on the comparative cost of supporting blondes and brunettes for the benefit of our bachelor subscribers.

In A few Words

At the Republican national Convention of 1920 Judge McCamant said, in nominating Calvin Coolidge for vice President, "he is big enough and sound enough to be President should occasion require."

Asking
Queries from clients. Q. How many articles of attire can you mention that are named after people? Am assembling window display of same. A. Offhand I can only think of the derby hat, raglan overcoat, byron collar blouse, empress eugenie hat and sam browne belt. Q. I claim heavyweight boxing champion, John L. Sullivan was not a six-footer. Right? A. Quite right, sir. Sullivan's height was 5 feet 10 1/2 inches.

Ten Best

What is your selection for the 10 best musical shows of the 20th century? What follows is the choice of an alleged expert on the subject: "Naughty Marietta," "Annie Get Your Gun," "Show Boat," "Street Scene," "Girl Crazy," "Kiss Me Kate," "Pal Joe," "Guys And Dolls," "Oklahoma" and "My Fair Lady." The old boy ignores "South Pacific." And how about the show titled "Sally?" Also, if you ask me, "The King And I" is about five times as good a musical show as "Street Scene" was. And how can you leave out "Madame Sherry?"

World's Best

That the liner The United States is the fastest and finest ship of its kind is understandable. American shipbuilders have been the world's best for over 150 years. The British once tried to prove their superiority as shipbuilders with ocean going racing yachts. They competed in 18 cup races with American-built boats of this type and lost every race.

Says She

"The nasty remarks about scorpions women made by that Libra female are not surprising," writes a Bostonian. "Libra women are notoriously catty. Besides Scorpions women are greatly envied by others of their sex. Scorpions women are magnetic and have great male attraction. So can they help it if surrounded at parties by male admirers? That makes other women widely jealous. Especially the Libras, who are excessively flirtatious and fancy themselves as man charmers."
