### 4,961 Visitors Are Listed at Museum; Gifts, Loans Made

Jacksonville—A total of 4,961 visitors from 40 states, Australia, the Hawaiian Islands, Alaska and Canada registered at the Jacksonville museum during July, according to Miss Mary Hanley, curator.

The total brought the number to 221,986 who have visited the museum since July 10, 1950. The July figure is 20 less than visited the museum during July, 1955, and 307 more than visited the museum in July, 1954.

During the past month, gifts and loans to the museum included two cashmere shawls and a Bible more than 100 years old from Mrs. M. H. Akerill of Grants Pass.

#### Other Gifts, Loans

Mrs. Dwight Houghton loaned a red velvet receptacle which probably was used to carry candles, Miss Hanley said.

Other gifts and loans included coins, deeds and certificates, and an American flag with 39 stars.

A collection of 248 coins was given by Capt. William McLaughlin, Spanish War veteran who lives in Ashland. The gift included 20 pieces of paper money. He began the collection in 1898 when he was stationed in the Philippine islands.

Jim Miller of Medford loaned a collection of 111 coins and one confederate \$10 paper money and a Russian note.

Deed signed President James Madison, John Adams and certificate signed by President Andrew Jackson also were presented to the museum.

### Study Finds Schools Not Meeting Needs

Ashland—Designed to present a factual account of selected business education practices in Oregon's public high schools and to evaluate them with carefully established criteria, a doctoral thesis by Dr. Alwin V. Miller, chairman of the Southern Oregon college business education department, indicated that Oregon's public high schools were not, as a group, meeting the needs of students in the subject area.

In compiling data for his thesis, Dr. Miller contacted only those Oregon high schools rated "standard" by the superintendent of public instruction. Out of the 222 schools, questionnaires were returned by 155 business teachers.

Based on findings of the investigation, Dr. Miller concluded that a majority of the schools participating in the study employed only one business teacher and that most of the schools lacked the necessary courses and facilities to provide needed business training for all students.

### Nine-Year-Old Admits Theft at School Here

A 9-year-old Medford boy was taken into custody Tuesday by Medford police for the theft of two new footballs from the equipment room at the football stadium of Medford High school taken between 4 p.m. Saturday and noon Sunday.

City police said the boy admitted the theft. The boy was released to the custody of his parents, police said, and the case referred to the Jackson county juvenile office.

The theft was discovered by Robert W. Newland, 919 Kenyon st., on the football coaching staff at the school.

The padlock on the equipment room door was pried off, police said.

### Keith Brothers Get Contract for Work

Keith Brothers, 1025 Barnett rd., have been awarded a bid at \$9,288 for placing rip-rap on Willow Creek dam, according to Robert L. Lee, superintendent. Only other bidder was M. C. Lininger and Sons, Medford, at \$13,230.

There will be about 2,700 cubic yards of rock placed on the dam about 40 miles northeast of Medford. Quarrying, hauling and placing will be from a municipal rock source.

Lee also said a bid has been awarded to the U. S. Pipe and Foundry company for 400 feet of 12 inch pipe and 4,400 feet of six inch pipe for the water department stock. The bid was for \$10,965.60.

EL SALVADOR SHRINKS — San Salvador, El Salvador — (U.P.) — El Salvador, smallest nation in the new world, shrunk today to barely half of what was thought its original size. Official sources agreed to accept the surveyor's estimate of 7,722 square miles for the area of San Salvador in place of the 3,237 square miles listed in its record books for years.
