The advertiser's highest standard—

AUDITED PAID CIRCULATION ABC

of circulation value

Every industry has a standard by which its products can be measured.

The jeweler uses the symbol of a pure diamond. In flatware, the word "sterling," and in dinnerware, the word "bone china," represent high standards of quality and value.

For the advertiser, the symbol of the highest standard of circulation value is the emblem of the Audit Bureau of Circulations*. This hallmark means that newspapers or periodicals so identified are measured according to the most highly regarded rules and standards in the advertising and publishing industry.

The fact that we are privileged to display this A.B.C. emblem here means that you can buy advertising in this newspaper as you would make any other sound business investment—on the basis of well known standards, known values.

*This newspaper is a member of the Audit Bureau of Circulations, a cooperative, nonprofit association of publishers, advertisers, and advertising agencies. Our circulation is audited by experienced A.B.C. circulation auditors. Our A.B.C. report shows how much circulation we have, where it goes, how obtained, and other facts that tell advertisers what they get for their money when they use this paper.
