The Medical Roundup

by Walter Alvarez
Emeritus Consultant in Medicine, Mayo Clinic
Emeritus Professor of Medicine, Mayo Foundation

More Children Should Get the Salk Vaccine
It is sad that today so many parents are failing to protect their children from polio. Even in a city like Chicago, where a serious epidemic is present, most parents are not bothering to have their children vaccinated, even when it would not cost them a cent. It is hard to understand this apathy. Probably many persons do not realize how great the danger is for their children, and perhaps many still fear that the vaccine is not safe.

Actually, today, it appears to be 100 per cent safe. Many do not realize how efficient the vaccine has been. For instance, I just read that among the children who, this year have come down with paralytic polio, not a single one had received the recommended three injections.

Dr. Otto John Held for Treason

Karlshruhe, Germany — (U.P.) — Dr. Otto John, 47, former chief of West Germany's counter-spy organization has been charged with treason. The charges against the man who defected to the Communists and then returned to the West were lodged by the Office for the Protection of the Constitution, roughly the equivalent of the American FBI.

Investigation into suspicion of high treason and espionage against John was completed today. This was eight months after he returned from a one and a half year stay in the Communist zone of Germany. John, who was head of the West German Political Secret Service, defected to East Germany in July, 1954, in a move which almost caused the overthrow of the government of Chancellor Konrad Adenauer.

United Air Lines Agrees To Wage Hike of 18 Cents
Washington — (U.P.) — United Air Lines has agreed to grant an average wage hike of 18 cents an hour to 8,000 ground personnel under a new one-year wage contract, union officials said Friday.

excited any comment, because in those days of sewage-contaminated drinking water, practically everyone was to have typhoid fever. But, today, in the United States, typhoid fever has been practically wiped out; and hence when a case appears, health officers are much disturbed. They immediately set out to find where it came from.

In this case, it was found that the girl had attended a big church party in the Bronx. That the infection had come at this gathering was indicated by the fact that two other girls who had attended the party had gotten the disease. Dr. Louis Penn got a list of the 150 or more
