The Medford city council last night passed ordinances adopting plans and specifications and awarding bids for several improvement district projects.

An ordinance was passed by the council adopting plans and specifications for improving Sutter ave. from Country Club rd. to Walden Place. The improvement calls for the installation of a 26-foot paved section with concrete curbs and gutters. Developers of the Country Club Manor subdivision, within which the street is located, are making the improvement at their own cost according to city specifications.

According to City Manager Robert Duff, the ordinance proposes to assess the property on Woodstock st. benefited by the improvement \$2.25 per front foot.

Ordinance Amended
Councilmen also amended the public peace and safety ordinance to clarify the charge of disorderly conduct. Duff explained that a complaint can be filed anytime the peace and quiet of any place in Medford is disturbed, and not just in a public place, as the previous ordinance stated.

On the recommendation of City Manager Duff the council granted the request of Trowbridge and Flynn Electric motor repair shop, 1225 North Court st., for a loading zone on Court st., adjacent to a fire hydrant.

City Manager Duff informed the council of an offer from the Llenquist Motor company to purchase a 15 foot by 53.7 foot strip of land owned by the city in block one, Cottage addition of

Company Railroad Damaged by Fire

Oroville, Calif. (U.P.)—A new effort was made today to cut off communications to the strike-torn Feather River Pine mills when a section of company-owned railroad was set afire.

Sheriff Larry Gillick said a small piece of the railroad three miles from a bridge across the south fork of Feather river was burned Tuesday night. Gillick said the company had planned to send an engine and crane down the track today and that if the burned out section had not been discovered the train might have been derailed.

Gillick said several planks across the railroad were burned and that nine ties of the roadbed were destroyed.

He said he had referred the incident to the FBI which already has agents on the scene investigating the burning of a company-owned bridge across the river Aug. 19.

The latest fire was discovered by two workmen.

The mill, owned by the Georgia-Pacific corporation, now is operated by non-union workers. It has been picketed since June, 1954, by the AFL Lumber and Sawmill Workers of America.
