

Six Committees Open New; Resume Former Investigations Today

Washington—(UP)—Activity at the capitol this week reached the highest point since Congress adjourned earlier this year. Six committees start new investigations or resume old ones. Democratic National Chairman Paul M. Butler and his Republican counterpart, Leonard W. Hall, will testify at the opening of an today subcommittee inquiry into campaign contribution expenditures. Butler charged in prepared testimony before the committee that corporation executives have solicited 1954 Republican campaign funds from their employees. He also charged corporation executives solicited GOP campaign money this year from "other persons dependent upon the corporation for their livelihood."

House Committee—The House Committee on Un-American Activities will hear testimony today from a foreigner who is billed as "director of the largest resistance organization behind the Iron Curtain." The witness—Ernst Tillich, director of "The Fighting Group Against Inhumanity"—was a TV Monopoly subcommittee will begin 10 days of public hearings at New York in its investigation of possible "anti-trust and monopoly problems" in the television industry. This is a continuation of previous hearings conducted here last spring.

Oregon Candidates Take Campaign To All Sections of State

By UNITED PRESS
Candidates for state and national offices, both Democratic and Republican, carried their pleas for votes to nearly every corner of the state yesterday and scheduled some whirlwind tours for this week. Sen. Wayne Morse (D-Ore.) and his Republican opponent, Douglas McKay, led the full scale assault aimed at capturing votes in the November general election. Morse accused the Republican party of betrayal of the farmers of Oregon and the nation in a speech yesterday at the Klamath county fairgrounds. The senior Oregon senator challenged McKay to answer if he would have voted for the farm bill that President Eisenhower vetoed and which Morse described as a "good bill." Meanwhile, McKay was planning for a trip to eastern Oregon this week to attend the Pendleton round-up and ceremonies celebrating the completion of the

natural gas pipeline. The Republican senatorial aspirant was also slated to meet with farmers in the Pendleton area and visit Benton county groups earlier in the week. Rep. Sam Coon, seeking reelection in the second district, today was slated to be in Hood River and Cascade Locks. At The Dalles yesterday, Coon said he was pleased to note a good harvest of wheat through most of Oregon's wheat belt. He said the farmers are getting a good price for their crops, too. The Democratic state central committee met in Bend yesterday and named four new executive committee members. Named to the posts were Richard Groener, Milwaukie; Pat Davis, Baker; Kenneth Rinke, Portland; and Ron Raddock, Oakridge. Much of the meeting was devoted to rallying enthusiasm for Democratic nominee for governor, Robert Holmes, who himself was busy campaigning in Multnomah county.

Miss America Beats 'Smart Guys' to Draw In First Press Meet

Atlantic City, N.J.—(UP)—The new Miss America, blonde Marian Ann McKnight of South Carolina, beat the "smart guys" to the draw in her first meeting with the press corps. The five-foot-five-inch beauty handled herself so well during her first news conference that she came up a winner although she won more of the honors in the preliminary judging during a hectic week of the Miss A pageant. The pretty queen from Manning, S.C., opened up her own conference before the reporters had a chance to wag a tongue. "I'm still numb," she said. "When Leonore Slaughter pinned the Miss America ribbon on me, she stuck me right hard. I was numb, I guess and I didn't even feel it."

Marian (35-23-33), is in love, of course, as most teenagers are. The lucky guy is Johnny Gamling, a first lieutenant in the Air Force stationed at Shaw Air Force Base, Columbia, S.C. Boyfriend Calls Johnny called Marian after she won Saturday night and said: "When will I get to see you, darling." Best answer she could give was that it will be a year or so maybe, unless she gets a coffee break to go back home. Margo Lucey, brown-haired Miss District of Columbia, came in second in the judging and Miss Alabama, 19-year-old blonde Anne Stuart Atrial, was third. There were no announced winners beyond that point in the contest among the 50 girls.

To Tour Abroad
Marian (35-23-33) is in love, of junior, starts her new duties today in New York. She is scheduled to appear on three television shows on different networks and to hold a news conference. From there she starts a 100,000 mile tour of personal appearances in several states and two trips to places like London, Rome, Paris, and Sicily. The tour is expected to net her at least \$50,000. Her year-long reign as Miss America of 1957 includes a ban on marriage.

Newberry Company Buys Portland Building
Portland—(UP)—The J. J. Newberry company Saturday announced purchase of the quarter-block downtown Portland building that it expanded into three years ago. The six-floor building was sold by Henry Cabell, representing his own interest in the building and that as a trustee under the will of the late Mary F. Failing. The transaction involved approximately \$775,000.

Cotton Output Listed At 13 Million Bales

Washington—(UP)—The Agriculture Department today estimated a 13,113,000 bale cotton crop will be produced this year, down 437,000 bales from last month's forecast.

Today's estimate, based on Sept. 1 crop conditions, compares with output last year of 14,721,000 bales of cotton and 10-year average production of 13,098,000 bales. This year's prospective crop, added to a carryover of 14.1 million bales, will meet consumption demands, both domestic and foreign, for more than two years. The crop reporting board esti-

Wheat Cargoes Set To Be Unloaded

Portland—(UP)—Seven ships from the Astoria reserve fleet are scheduled to have wheat cargoes unloaded at Longview, Wash., starting this week. The Commodity Stabilization Service announced that the grain from the liberty vessels would be placed on the export market.

Estimated cotton yields this year will average 402 pounds of lint an acre, compared with last year's record of 417 pounds and a 10-year average of 233 pounds. The board said condition of this year's crop Sept. 1 was 75 per cent of normal, compared with 81 per cent Sept. 1, 1955, and a 10-year average of 72 per cent.

Couple Injured When Car Hits Horse Sunday

Mr. and Mrs. George Besman, Grants Pass, were treated and released at Sacred Heart hospital Sunday after the car in which they were riding struck and killed a horse on highway 99 north. Complete reports on the accident were not yet available this morning at the sheriff's office. Sheriff's deputies answered the accident call with Medford Ambulance service which took the couple to the hospital.

According to Medford Ambulance service, the car struck and killed a horse which had strayed onto the highway between Medford and Central Point at about 3:15 a.m. Sunday.

MEDFORD (OREGON) MAIL TRIBUNE—FIVE

Two Single Car Accidents Reported

Two highway accidents, each involving one vehicle, were reported by state police over the week end.

Late Saturday evening a car driven by Rex Eugene Hopper, 21, Gold Hill, hit a light pole near the Rocky Point exchange on highway 99. According to police reports Hopper, traveling south on 99 at 50 miles an hour, lost control of his car when he tried to look into the glove compartment. The car turned on its left side after cutting off the light pole. Hopper received a slight bruise on his knee. His car was re-

moved from the scene by wrecker. Early this morning a car driven south on highway 99 by Kenneth Lee Gentry, 228 1/2 East Main Medford, hit the blinker light post on the Beal lane traffic divider. The car, traveling between 55 and 60 miles an hour, skidded and turned over after striking the post, according to state police reports.

Gentry was taken to Rogue Valley (Community) hospital by private car and was released later this morning. He was cited by police for failing to operate on the right side of the highway.

One machine tabulating 400 names a minute and running 40 hours a week would require about two years and eight months to count all of the people in the United States today.
