### PTSA Adopts Project in Eagle Point

Eagle Point — A project for the year was decided on at the first fall meeting of the Eagle Point High School Parent-Teacher-Student association. The group plans to make robes for the chorus, raising money for the project by holding an auction.

Her tour, sponsored by the National Education association, included such points of interest as shrines of authors, historical monuments, Niagara Falls and a banquet with Canadian teachers in Quebec. At this dinner Miss Olson was called upon to tell of PTA organizations in the United States.

Mrs. Don McGovern illustrated her talk on Hawaii with slides that she and her husband took during their trip to the islands last summer. Noteworthy were the slides of volcanic craters, Pearl Harbor, and the vegetation of the island.

The meeting began with the flag salute led by Larry Meyer, sophomore student representative, with Mrs. Victor Hay giving the invocation. A budget report was given by Mrs. John Huffman and committee chairman were introduced.

### American Women Must Have Mink

BY GAY PAULEY  
United Press Correspondent

New York — We're sorry to break this news to husbands. But the odds are all in favor of mink for her new fur coat.

Here's why, said spokesman for the fur industry in New York, where 75 to 85 per cent of all fur garments are made.

The furriers have had their sales headaches since World War II, except in the mink division. And, as the demand for this luxury fur grew, the manufacturers who specialized in the less expensive and less glamorous muskrat, rabbit and skunk climbed on the mink bandwagon.

The result is an actual shortage of some furs. A spokesman at Fur Age, the weekly trade publication, said it wouldn't be "too fantastic to predict" that one day a woman would have to wear mink because there wasn't much else around.

If this I-sigh-for-mink trend continues, that is.

The Mutation Mink Breeders Association reported that of the 974,000 fur garments made in 1955, 285,000 were mink—coats, stoles, jackets and smaller items.

Mink accounted for 50 per cent of the 1955 sales total of \$300 million, George Greenberg, executive manager of the Associated Fur Manufacturers, Inc. reported. Last year was the best the industry has had since 1946.

Fur Age just published a study which showed that for the fourth consecutive year there were more mink manufacturers than any other in the industry. In 1950, there were 656 mink specialists. Now there are 923.

The publication said manufacturers of Persian lamb, once the number one seller, have suffered most by woman's expensive tastes. There also are fewer making muskrat, rabbit, kidskin and marmot.

Fur Age listed the top six furs — in sales, not in luxury — as mink, Persian lamb, muskrat, squirrel, Alaska seal and mouton.
