Chinese Reds Say First Five-Year Plan Success

Tokyo — U.P.—Chinese Communist Premier Chou En Lai said his government's first five-year plan has been successful to date only because Red China had the help of Soviet specialists. Peiping Radio reported Saturday.

Chou spoke at a reception for "foreign specialists" Friday, the Peiping broadcast said. It quoted him as saying China will depend even more upon Russia and other Communist countries for technological guidance during the second five-year plan to be launched in 1958.

Neuberger Questions Whether Estes 'Hero' Of Al Sarena Case

(Editor's note: The following article is a statement by Senator Richard L. Neuberger concerning the Al Sarena mines.)

(Special) — The absurdity of ex-Secretary Douglas McKay's attempt to involve Senator Estes Kefauver in the Al Sarena deal would be comical, if McKay's distortion of the facts was not designed to cover up the role of Congressman Harris Ellsworth in granting of the contested mining patents.

Before McKay took office the Al Sarena timber was still in the hands of the United States forest service, but within two years after he became secretary of the interior patents were granted and the Al Sarena company logged off more than 2,000,000 board-feet of national forest timber. Who was responsible for the intervention which made possible this timbering in the Rogue River National forest? Not Estes Kefauver.

Committee Report

Page 17 of the House Government Operations committee report on the Al Sarena case reproduces a letter from McKay's interior department solicitor, Clarence A. Davis, which says: "Pursuant to my conversation with Mr. Garber, the following modus operandi is acceptable to me in acquiring further evidence of a valid discovery on your contested claim." Mr. Garber was the assistant of Congressman Ellsworth who worked out with Davis the special procedures by which McKay was able to grant the patents.

Page 18 of the same report reproduces another letter from McKay's aide which says: "In an effort to determine the matter fairly, I have agreed with Congressman Ellsworth, who has interested on behalf of the company, to ask you and Mr. Valin of the Bureau of Mines, or his substitute, to procure personally, sufficient samples of the deposits on each claim to afford adequate assays on which the Secretary can base his decision on the validity of the discoveries."

I challenge McKay to deny that it was Ellsworth who interceded on behalf of the company. The peak of absurdity is reached by McKay when he attempts to drag Senator Kefauver into the Al Sarena picture. McKay and the Republican press exert great effort in an attempt to show that everything was legal and aboveboard in the Al Sarena case. Now McKay tries to make it appear that Kefauver was almost solely responsible for something which they have already shown to be false.

American Ships Unload Stores for SEATO Ships

Singapore—U.P.—Four American Navy destroyer escorts unloaded stores Saturday for SEATO ships taking part in Operation Albatross.

The second phase of the SEATO naval exercise, the largest sea maneuver in this area since World War II, begins early next week.

Home Service Program Provided by Red Cross

(Editor's note: This is another in a series of articles discussing agencies in Jackson county which receive funds through contributions to the United Medford Crusade.)

A primary responsibility of a Red Cross chapter is to provide a well-rounded program of family service to members of the Armed Forces and their families as well as to veterans and their dependents.

Home service is the program through which American Red Cross carries out this responsibility in every community. Emergency relief to civilians is provided in accordance with the chapter's ability, and then only by the standards of work prescribed by the national organization.

Home Service in County

Home service in Jackson county has carried out its obligations with the assistance of volunteer social service aides who are required to take a standard course before being allowed to do any case work. The program serves on a 24-hour basis seven days a week.

During the past year Jackson county chapter spent \$7,808.56 to carry out the program, of which, \$699.00 was repaid on Red Cross loans. In addition to this, \$3,485.31 was spent in communications. The major part of the latter was service regarding verification of military leave, request or extension of leave, notifying service men of local family situations, illness, and similar situations.
