By MARY JO. HARRIS
Mrs. Wm. L. Harris and Mrs. Mr. and Mrs. Doug Finch, of the US Forest Service, have a dogwood tree blooming in their front yard.

Mrs. Finch reported that the tree was loaded with blossoms this past spring and is now blooming once again. Though the earlier blossoms were full circles, these are malformed and appear to be single large white petals. From all reports, this is an oddity.

Load Lost
A trucker lost his load of logs just this side of the railroad track within our city limits. According to report, the train whistled and the trucker apparently did not hear it until it was too late for him to pass safely over the tracks or to have sufficient clearance to stop on this side.

He swerved and turned just beyond the Hoffman home, this side of the tracks, and hit a stump. The cab is upright and the trailer is on its side. The chains held fast and the log load remained intact. The trucker was not injured.
