Smallest screws in a watch have about 26 threads to an inch and are so tiny they weigh only about one two-thousandth of one ounce.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

The Medical Roundup

by Walter Alvarez

Emeritus Consultant in Medicine, Mayo Clinic
Emeritus Professor of Medicine, Mayo Foundation

A CRICK IN THE BACK

Many persons ask me why they have a crick in the back, and what they can do about it. Usually I think a crick in the back is due to a smouldering tendency to arthritis of the spine. I know that in my lifetime I have had hundreds of such cricks, sometimes quite painful. Fortunately, they were temporary, and usually they soon went away without an treatment. I think they were all manisfestations of my tendency to fibrositis, which is a relative of arthritis.

Dr. Alvarez

When a person has a paralyzing crick in the back, which comes perhaps after trying to lift a trunk in the attic, and when then he can hardly straighten up, and perhaps has to remain in bed for a few weeks, it may well be that one of the discs that lie between the vertebrae slipped back and pressed on the nerves. In some of these cases the man has to be operated on and the disc removed before he can be well. In some cases the disc slips back into place and then the pain goes.

On other cases it seems as if some bit of bone had slipped out of place in the spine, and then manipulation may suddenly bring relief. In some cases a hot tub will help, with perhaps a couple of aspirins, and some deep massage.

The Woman With Closed Tubes

Women who want a child or more children ask me what the gynecologist meant when, after trying to inject some gas through their uterus and out through their tubes, he said that these tubes were closed and obstructed. What he meant was that if no gas could get through the tubes, then a little egg from the ovaries could not go through into the womb, and hence there could be no chance of the woman's having a child. Many a woman then asks if a surgeon could repair or open up the tubes, and my answer is "No." A surgeon could make something that would look like a tube, but it is not likely that it would function delicately and exactly as a tube has to do if a tiny ovum is to be carried through it.

Many women who once have had their tubes tied now want to know if they could have them untied, but surgeons tell me they doubt if this can be done with much hope of success.

Officials Urge Polio Vaccine Use

Washington — (U.P.) — Leaders in the fight against polio today strongly urged Salk shots for young adults because the danger of their getting the disease has been increasing sharply in recent years.

They also said injection would be "good insurance" for older men and women since polio is no respecter of age even though it strikes hardest among children.

Officials of the Public Health Service and National Foundation for Infantile Paralysis made the statements in an attempt to dispel a "widespread misconception" that adults are somehow immune to polio and don't need Salk shots.

The questions of injections for adults has gone to the fore with recent upsurge in vaccine production. In 24 states — and probably in others which haven't reported to Washington — priorities already have been eased to permit adult inoculations.

Dr. David E. Price, assistant U. S. Surgeon General, told the United Press, "we are urging Salk injections for adults wherever the vaccine is available." He said young adults particularly need protection.

Dr. Hart E. Van Riper, medical director of the polio foundation, said "all women of childbearing age" and men "at least to the age of 35 and possibly 40," should get shots.

HOLD ELVIS MARATHON

Chicago — (U.P.) — A Chicago radio station today planned a 12-hour marathon of nothing but Elvis Presley records. Station officials said it was the climax of a 10-day letter-writing contest on "why Elvis should come to Chicago."

There are about 500,000 eating places in the U.S.
