Klamath Judge Favors State in Anderson Writ

Klamath Falls — (UP) — Klamath County Circuit Judge David R. Vandenberg yesterday ruled in favor of the State of Oregon in its demurrer to a writ of habeas corpus filed by convicted slayer James Quinton Anderson.

"The matter of whether the state has jurisdiction over crimes on the Klamath Indian reservation," Judge Vandenberg said, "has been most talked off, but the important point and the one this court has considered is whether the Congress of the United States can delegate powers to the state."

Excluded by Treaty
A treaty between the United States and the Klamath Indians ratified in 1870 excluded Indians from state jurisdiction. Judge Vandenberg ruled that Public Law 230 which is part of Public Law 587, the Klamath reservation termination act, released jurisdiction from the federal government to the state government. Public Law 230 by implication repealed all federal laws or treaties. Judge Vandenberg said the question of whether Congress has power to delegate jurisdiction is one which "I feel I am not in a position to pass on."

Ruling To Be Appealed
Leonard Waterman of Burns, one of Anderson's attorneys, said the ruling would be appealed to the Oregon Supreme Court.

Anderson was convicted in a Harney county Circuit Court in 1955 of the slaying of Richard David Miller, Klamath reservation show horse breeder. Subsequently the Oregon Supreme Court upheld the conviction and life sentence of Anderson.

Israel Revenge For Deaths Feared

Jerusalem (Israeli Sector) — (UP) — The Middle East feared today Israelis will organize a new punitive expedition to avenge the Arab slaying of five Israeli civilians in an ambush near the Jordan border.

An American engineer escaped death in the attacks.

In recent weeks Israel has retaliated against such alleged Arab attacks with savage military sorties that have taken the lives of at least 48 Jordanians.

And just three days ago Israel withdrew from the United Nations Mixed Armistice Commission which investigates such border incidents, charging that the investigators placed too much of the blame on Israel.

Israeli officials said Arab invaders opened machinegun fire Thursday on two vehicles near Sodom, at the southern end of the Dead Sea, and nine miles from Jordan. All four occupants of a truck were killed and one passenger in an automobile was cut down when he tried to flee.

An American engineer who was riding in the bullet-riddled car escaped injury but had to be treated for shock. He was identified only by his last name, Smith.

PLEASURE AND PAIN
North Haven, Me. — (UP) — Elmer Hopkins waited for months for a new motorcycle to be delivered by ferry boat to this island. The motorcycle was delivered and an hour later Hopkins broke his leg and landed in a hospital. The motorcycle was ruined in the accident.
