are you a SYSTEMATIC SAVER?

Almost certainly you're a saver of some kind. But are you a systematic saver . . . or are you the kind who puts a little money in the savings account whenever you can't think of anything else to do with it?

Systematic saving, you know, isn't at all complicated. In fact — it's the easiest way to save — and it's certainly the most profitable way. All you do is (1) Start saving — (2) Save regularly — deposit a certain amount, however small, out of each paycheck — (3) Leave your money in the account—where it earns steady dividends.

It's as simple as that! The result? — SECURITY — a steadily growing bank balance for a rainy day . . . or to make your dreams come true!

The three are scheduled for trial on sedition charges for publishing germ warfare and other charges against the United States during the Korean conflict.

Judge Goodman said it would be "unjust at this state of the proceedings to say no" to the defendants' request for expenses in gathering testimony and depositions in North Korea and Red China. Qualifies Ruling. However, he qualifies the ruling with two stipulations. They were: 1. The defendants must, within 45 days, produce a statement showing the precise time and
