

# Parties' Conflicting Views on Education Eyed by Neuberger

Eugene — Conflicting views of the value of education, and of the community's responsibilities in providing it, is a key issue between the parties in the 1956 Oregon election campaign, Sen. Richard L. Neuberger told a student convocation at the University of Oregon Tuesday.

The issue is clearly drawn, both at the level of state leadership and at the level of national legislation in aid of education," Neuberger said. "At both levels, the Democratic party has insisted on recognition of our responsibility for providing every child with the opportunity to develop to its full capacity. The Republican party leaders, on the other hand, have equally consistently shown that they measure the minds and spirits of our young people against materialistic yardsticks of costs and financing — even when short-run penny-pinching on school expenditures is shown to endanger both the nation's economy and its security in the generation ahead."

**Clear-Cut Choice**

"In electing a governor this year, our state has a clear-cut choice between the best friend of education in the state senate, and its worst enemy," Neuberger stated. "In this election, the voters have a rare opportunity to judge two candidates on public-records made on identical issues under identical circumstances over the same period of years."

"Bob Holmes and Elmo Smith both came to the Oregon state senate in 1949. Since that time, Bob Holmes has built an outstanding record in support of education in our state — a record which earned him the Oregon Education association's title of Education Man of the Year in 1953. At the same time, Elmo Smith was building a dismal record of opposition and obstruction on school issues. These are some of the progressive proposals which Bob Holmes supported and Elmo Smith opposed: (1) A minimum salary for teachers; (2) a sick leave program for teachers; (3) reservation of two channels for educational television; (4) first a junior college and then a four-year teacher training program for Portland State college. A fifth vote would have crippled future school financing by imposing a high minimum vote in local school bond elections — true to form, Elmo Smith cast his vote for this anti-school measure, while Bob Holmes opposed it," Neuberger said.

# Dog Well Acquainted With Niagara River

Niagara Falls, Ont. — (AP) — A seven-year-old cocker spaniel named Rover knows the Niagara River just about as well as the famed Hill brothers.

Rover, a dog that rescues birds, is owned by Wesley Hill, 26-year-old son of the late William (Red) Hill, whose life-saving feats in the Niagara are legend. The elder Hill saved at least 28 persons from death in the river.

Wesley, one of several sons, trained the cocker to get the feel of the river at an early age. Then, using a dead sea gull, he taught Rover to retrieve birds.

"Now I just have to point to a gull and the dog will jump in and bring him back—he's now pointed to retrieve anything I point to in the river," said his owner.

Hill estimates his pet cocker has rescued some 600 sea gulls and more than 2,000 ducks from the river. Hundreds of the birds are swept over the falls annually, mostly during fogs. Some die, but many are merely stunned.

Hill sends out Rover to rescue them, then takes the birds back home to feed them and nurse them back to health. As a last step, he turns over the birds to game wardens who release them in area parks.

The riverman believes the hobby he shares with Rover "is a very beneficial one."

## The advertiser's highest standard—

CIRCULATION PAID

CIRCULATION

**of circulation value**

Every industry has a standard by which its products can be measured. The jeweler uses the symbol of a pure diamond. In flatware, the word "sterling" and in dinnerware, the word "bone china," represent high standards of quality and value.

For the advertiser, the symbol of the highest standard of circulation value is the emblem of the Audit Bureau of Circulations\*. This hallmark means that newspapers or periodicals so identified are measured according to the most highly regarded rules and standards in the advertising and publishing industry.

The fact that we are privileged to display this A.B.C. emblem here means that you can buy advertising in this newspaper as you would make any other sound business investment—on the basis of well known standards, known values.

\*This newspaper is a member of the Audit Bureau of Circulations, a cooperative, nonprofit association of publishers, advertisers, and advertising agencies. Our circulation is audited by experienced A.B.C. circulation auditors. Our A.B.C. report shows how much circulation we have, where it goes, how obtained, and other facts that tell advertisers what they get for their money when they use this paper.
