Science Shrinks Piles

New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—a discovery of a world-famous research institute. This substance is now available in repeating or infrequent term under the name Preparation H. At your drugstore. Money back guarantee.

MOO-O-O-S AND MUSINGS

There's one unshakable sign of fall.

That's when your neighbor brings back your lawnmower and borrows your rake.

Nausea
Many want to know what causes nausea. I think, often, it is associated with waves coming back up the digestive tract. That is why it is so marked a symptom when a person is trying to vomit. I suspect that at times it is produced in the brain or in the balancing mechanism in the ears. My experience with the first Cinerama, when I seemed to be going down a big amusement park roller-coaster, showed me that impressions taken in by the eyes can cause nausea. I remember a woman who became nauseated when she found an inch-worm in her salad, and another who became terribly nauseated, and vomited when her beau proposed to her in a restaurant. I remember a Mohammedan student in this country who became badly nauseated when pranksters in his boarding-house told him that unknowingly he had just eaten pork.

A young woman patient of mine suffered from much nausea for some weeks after her beau eloped with another woman. Other women get nausea when they found that the husband was repellant to them.

I sometimes get nausea when very tired, and I know business men who, after a hard day in the office, will wake with nausea about two o'clock in the morning. This never comes when they are on a vacation.

The antivenetionists would have us believe that all animal experimentation brings untold suffering to the animals. Actually, recently, Dr. R. H. Felix, Director of the National Institute of Mental Health, told of rats that, under anesthesia, had had two very slender wires passed into an area between the two main halves of the brain. When a very weak alternating

Marine Corporal Reduced, Fined

Parris Island, S. C. (UPI)—A Marine corporal Saturday faced reduction to private and two months of hard labor for assaulting a recruit who failed to say "sir."

A Marine court martial Friday refused to hold that Cpl. Richard J. Bille, 21, of Erie, Pa., slugged the recruit, causing a hernia, but found him guilty of simple assault.

Bille was charged with striking Pvt. Donald Hamisfar, 20, of Norwalk, Ohio, last Aug. 23 the day before he was hospitalized for hernia. Later he underwent surgery to correct the hernia.

The court deliberated only 55 minutes before returning the verdict of guilty of simple assault, with a finding of innocence of mal-treatment. After a second deliberation of 40 minutes the court ordered Bille reduced to private, and ordered a pay forfeiture of \$65 monthly for two months.

that when a little pedal switch was put into their cage, the rats kept pressing on it again and again. They kept doing this even when they should have stopped to eat and drink.

Now, the doctors are wondering if treatment like this might bring relief and comfort and help to depressed patients in a mental hospital.

Dr. Alvarez hopes his readers will understand that it would be impossible for him to answer requests for information or to attempt to diagnose by mail.

Strange As It Seems

WHEN GUSTAVUS ADOLPHUS FACED WALLENSTEIN AT THE BATTLE OF NUREMBERG IN 1632, NOT A SHOT WAS FIRED, YET THE ARMIES RETREATED WITH CASUALTIES OF 18,000!

THEY WERE PREPARED TO FIGHT WHEN SCURRY AND TYPHUS STRUCK BOTH SIDES, FORCING THEM TO MARCH AWAY TO ESCAPE FURTHER RAVAGES OF THE PESTILENCE!

ELECTRIC POWER FROM UNMINED COAL! AFTER SEVERAL YEARS OF TESTS IN BRITISH COAL MINES, SCIENTISTS HAVE BEEN GENERATING BY A PROCESS CALLED "UNDERGROUND GASIFICATION." AIR IS PASSED THROUGH A COAL SEAM BURNING UNDER CONTROLLED CONDITIONS. THE RESULTING GAS DRIVES ENGINES. THAT GENERATES ELECTRICITY WHICH OTHERWISE WOULD NOT BE ECONOMICALLY POSSIBLE...
