

Stevenson Said To Be In Win-or-Lose Phase Of Election Campaign

Libertyville, Ill. — (U.P.) — Adlai E. Stevenson today entered what his top advisers regarded as the crucial win-or-lose phase of his election campaign with plans for a whirlwind coast-to-coast finish.

First item on the campaign agenda of the Democratic presidential candidate this week was a nationwide television address tonight from Chicago (10:30 p.m.) attacking the stand of President Eisenhower on halting United States H-bomb tests.

Stevenson's campaign lieutenants from New York and Washington joined him at his farm in nearby Libertyville over the week end to map plans for the final three weeks of the campaign. From their sessions emerged these developments:

Veep 'Best Issue'

One of the top political experts advising Stevenson reported that the best issue the Democrats have is Vice President Richard M. Nixon and what the Democrats believed to be "public distrust" of the vice president. Stevenson was expected to fire a detailed blast at Nixon shortly, laying out a "bill of particulars" to explain how and why the vice president will become the real leaders of the GOP if the Republicans are returned to office.

Stevenson will campaign in the New York City area Oct. 23-24 and address a big Democratic farm rally at Springfield, Ill., Oct. 25.

The Democratic candidate will kick off the "dollars-for-Democrats" campaign today by ringing doorbells and asking for small campaign contributions in Libertyville today. The nationwide door-to-door fund raising drive of the Democrats begins formally Tuesday.

Between now and the end of

Toastmasters Club To Meet Tonight

Medford Toastmasters club will hold its regular weekly meeting Friday at 6:30 p.m. in the Rogue room of the Medford hotel.

Toastmaster for tonight is John Austbo. Dan Hull will be critic. Al Bradford, topicmaster, and Russ Mitchell, Jack Canon and Ron Cordon, speakers.

All persons interested in joining the Toastmasters club are invited to attend tonight's meeting, members said.

Anyone interested in the toastmasters club, who is unable to attend the evening meeting, may attend the morning Toastmasters club, which meets each Monday at 6:30 a.m. in the Jackson hotel.

Society

Alpha Phi Alumnae To Mark Founding

Founders' day will be observed by members of Alpha Phi alumnae Tuesday, October 16, at the home of Mrs. Donald C. Jackson at 847 West Thirteenth street. Alpha Phi International sorority was founded at Syracuse university, Syracuse, N.Y., on October 10, 1872.

Following an original custom, each member will contribute one penny for each year of age of the sorority, toward the founders' loan fund, available to collegiate members, in good standing, who have completed two years of college work.

A commemoration ceremony will be conducted by the club president, Mrs. Lucien Herbert.

Kefauver Launches New Attack on GOP Opponent

En Route With Kefauver — (U.P.) Sen. Estes Kefauver charged today that a "disguised" Vice President Richard M. Nixon "is trying to get into the White House on false premises, a false front and a false face."

The Democratic vice presidential candidate made his new attack on Nixon—as sharp as any of his campaign—in a speech prepared for delivery at a Burlington, Vt., rally. With 27,000 miles of campaigning in 27 states already behind him, Kefauver was launching a new coast-to-coast campaign trip.

Reference To Expense Fund
The speech contained Kefauver's first reference during the present election campaign to Nixon's expense fund, a major controversy of the 1952 campaign. Asserting that Nixon is "no friend of the small businessman," Kefauver said simply that "the contributors to the Nixon fund all had special interests to protect."

That was an allusion to the fund raised by Nixon's supporters to help pay certain expenses of the then Senator Nixon. Existence of the fund, disclosed during the 1952 presidential campaign, caused a furor which provoked Nixon's widely publicized radio-TV speech defending the fund and explaining its uses.

Kefauver was scheduled to fly to the New York City area later today.

Nixon Confident GOP Moving Ahead In Farm Belt Area

En Route With Nixon — (U.P.) — Vice President Richard M. Nixon surged into a strenuous stump-speech tour of Ohio today confident that the Republican campaign is "off the ground and moving ahead" even in the Farm Belt.

Nixon scheduled seven speeches and two news conferences in a 14 hour day of barnstorming across the Buckeye State by plane and auto.

In Indiana Tuesday

Nixon speaks to a rally in Dayton, flies to Toledo and Maumee, transfers to a smaller plane for a flight to Defiance, returns to Toledo for his regular plane, flies to Warren and ends up in nearby Youngstown.

He slumps Indiana Tuesday. Nixon told a new conference on Sunday that he believes the GOP will "do pretty well in Ohio."

He also predicted that the Republicans will carry the Midwest Farm Belt—even restive Minnesota—despite low farm prices, but acknowledged that his party is in trouble in some states most severely hit by drought.

He said drought in the Southwest, now spreading seriously into the Western Corn Belt, did not endanger the national ticket because its heaviest effect was in states like Oklahoma which the Republicans are not counting on for victory.

FLOOD VICTIMS MOVED

New Delhi, India — (U.P.) — Nearly 70,000 residents of flooded New Delhi suburbs were evacuated from their homes today and Sunday. The Jamuna river was two feet over the danger level and continuing to rise. A report reaching here from Uttar Pradesh said 34 persons were drowned in the village of Bekanpur.

More than 70 per cent of Indonesia's working population is engaged in agrarian pursuits.

Metrology is the science of, or a system of weights and measures.

Chamber Committee Approves Measures

The committee on governmental operations of the Jackson County Chamber of Commerce this morning went on record approving five of the six city measures which will appear on the ballot Nov. 6.

The committee referred to its recommendations to the chamber's board of directors for their information on any action they may wish to take.

Storm Sewers

3. (Ballot No. 53) — A storm sewer program, to construct main trunk sewers to drain off water from several city areas which now have a standing-water and flooding situation after each rainstorm. It would be paid for by a bond issue for immediate construction of the most badly-needed work, and a continuing small tax levy for six years to pay for the rest of it.

4. (Ballot No. 54) — A sanitary sewer project, to build new sewers to serve both areas now without trunk sanitary sewers, and areas where existing sewers are inadequate. It would be paid for by a small annual tax levy for six years.

5. (Ballot No. 55) — Annexation of a small area in east side Medford, now entirely surrounded by the city.

The committee, under the chamber policy limiting the chamber's interests to matters of overall economic importance, took no action on the Florida-ditch proposal.

CLAIMS BALLOON RECORD

London — (U.P.) — Moscow radio claimed Sunday that a Soviet weather balloon released from the Antarctic research station at Mirny soared to a new record height of 22.3 miles.

Josephine County Court Adopts Brief

Grants Pass — A brief to be presented to the flood control hearing in Medford has been adopted by the Josephine county court giving general recommendations for flood control in the Rogue River Basin.

The Senate Interior and Public Works committee will conduct the hearing October 19.

The brief states that the county court wanted to go on record in favor of a complete program of flood control.

The brief recommends the investigation of both tributary and main-stream dams as to what can be accomplished and what it will cost. It concludes by pointing out that floods cause erosion which destroys not only the present value of the land but future land productivity.

Coquille Man Hurt As Car Leaves Road

Springfield, Ore. — (U.P.) — A 71-year-old Coquille man was hospitalized yesterday when the pickup truck he was driving plunged into a drainage ditch on highway 58 near Pleasant Hill.

Police said Anson N. Fields and his wife were returning from a hunting trip to eastern Oregon when the car ahead of them slowed. Fields attempted to slow his car and swerved onto the highway shoulder and into the ditch.

PT&T To Lay Phone Cable To Hawaii

San Francisco — (U.P.) — The Pacific Telephone and Telegraph company has disclosed plans to lay the world's longest underwater cable to connect the West coast with Hawaii.

A PT&T spokesman said the 2100 nautical mile cable will be laid between Point Arena in Mendocino county and Koko Head, Oahu.

The cable laying operation will begin next summer and will last into the fall. Four ships will be used.

Total cost of laying the cable will be \$35 million.

The cable will consist of two parallel cable lines. One will carry eastbound traffic and the other westbound. A total of 38 circuits will be available to handle the 500 calls placed daily between Hawaii and the mainland.

Chilled apricot whole fruit nectar with a teaspoon of frozen lemon 'n' lime concentrate stirred in makes a refreshing breakfast eye opener.
