### INFECTION OF THE BLADDER

Many persons suffer from cystitis (an infection of the bladder). Some who think they have such an infection really have it higher up, in the kidney. A good urologist can soon tell them where the infection is, and what type of germ is causing the trouble. Sometimes, when an infection in the bladder or the kidney is chronic, it is being kept up by the presence of stones.

Whenever a nervous woman comes in and says that she has great frequency of urination during the day but none at all during the night, I am almost certain that she is facing some problem that she cannot make up her mind about. Usually, a little

questioning shows what this is, and when she is able to make a decision, she immediately is well. If there is frequency of urination by night as well as by day; if there is burning on urination, and if the urine is cloudy and contains germs and pus, the person is likely to have an infection of the bladder. A physician can tell what the trouble is by putting a few drops of recently passed urine under the microscope. Then he may see many germs and pus cells.

Fortunately, today, we physicians have several good remedies which tend quickly to clear up an infection in the bladder or the kidney. These remedies should be taken under the supervision of a physician, preferably a urologist.

New York — (U.P.) — Actors Edward G. Robinson and Vincent Price correctly answered the \$32,000 question Sunday night on "The \$64,000 Challenge" television quiz program.

They return to the show next Sunday evening to compete for the top prize money.

Both named Monet's portrait of Renoir, Chasé's of Whistler, Durré's of Wolgemut, Charles Willson Peale's of James Peale and Balthus's of Miro.

### Suicide Attempted After Double Murder

Rockford, Ill. — (U.P.) — A "brilliant" mother, bedevilled by fears that her failures made her son quit the U. S. Air Force Academy, killed him and her 12-year-old daughter Saturday and then attempted suicide.

The double murder was discovered by the father, Ralph Middleton, when he came home from work shortly after noon.

He found the two-story house silent. He went upstairs to investigate and there found the bodies of his 18-year-old son, Thomas, and his daughter, Judy, in their beds.

The mother had shot them through the head with a target rifle as they slept.

Middleton found his 45-year-old wife, Dorothy, in agony in the basement. She had drunk a combination of lye and carbolic acid in an attempt to end her own life.
