

Program on Birds Given for Meeting Of Butte Falls Club

Butte Falls — Mrs. Howard Bush of Medford spoke on birds at the last meeting of Butte Falls Garden club, held at the home of Mrs. N. E. Stoddard.

Mrs. Bush displayed oriole and hummingbird nests, which are unique and difficult to find. Feeding the birds in the winter brings in many close enough for interesting study, she said. Such foods as suet, chick scratch, hemp, millet or sunflower seeds, nut meats, currants or any scraps from the table are attractive to birds, Mrs. Bush said.

Hawthorne trees, holly, and michaelmas daisies grown in gardens furnish interesting meals for feathered friends, she said. Mrs. Bush displayed a large collection of "books" available to bird lovers, many with colored illustrations making identification easier.

Mrs. Stoddard, conservation chairman, read material concern-

ing a giant toad which can squirt a deadly poison a distance of 12 feet and which devours rats and mice. It is being studied by zoologists of the University of California. The amphibian is known as the Colorado River toad because it is native to the Colorado basin in Arizona and California. It is being put through its paces in a laboratory aquarium so that more can be learned of its little-known habits.

The toad grows to a length of nearly a foot, when fully outstretched. Only the marine toad of South America is larger.

Mrs. Ira Fitzgerald explained interesting Christmas packages passed around many samples she had prepared.

Roll call was answered by members with the name of favorite fall flowers.

Guests attending besides the speaker, Mrs. Bush, were Mrs. Ira Fitzgerald, Medford; Mrs.

John Nagel, Eagle Point; Mrs. Louis Crammer, Butte Falls; Mrs. Howard Simmonds and Mrs. Donald C. Smith became new members.

Refreshments were served by the hostess, Mrs. Stoddard and co-hostess Mrs. Mattie Carson. Mrs. Estelle Curtis poured.

United Nations Celebrates 11th Anniversary Today

United Nations, N. Y.—(U.P.)—The United Nations celebrated its 11th anniversary today in ceremonies here and in capitals and provinces throughout the world.

Since 1947, when the General Assembly designated Oct. 24—the date on which the U.N. charter came into force in 1945—as United Nations Day, observances have increased steadily in number and variety. Last year, 92 countries held celebrations and the number was expected to be greater this year.

Secretary General Dag Hammarskjöld, who will be host to the General Assembly hall tonight, said in a U.N. day message:

"We are all aware of the great problems which are reflected in the conflicts of present day international politics. In the efforts to resolve those problems, the U.N. has a crucial responsibility . . ."

Artists from Austria, Greece,

Britain and the United States will appear in tonight's program.

Throughout the United States

about 1,200 cities and towns have appointed U.N. Day committees, and in most states and territories, governors have issued proclamations setting aside the day. Many committees will present "shelves" of U.N. literature to their public libraries.

Grange Notes

GOLD HILL GRANGE

The Gold Hill Grange meeting Oct. 18 was well attended by members and officers. It was conducted by Master Herman Kamping.

The business consisted of committee reports on the purchase of wood for the grange and discussion of the coming bazaar and rummage sale.

Booster night was very successful. They were displays of hobbies, fruit, vegetables and flowers.

The lecture hour was turned over to Icie Walker and consisted of a talk by brother Howes on his trip to Hawaii. Several skits were put on by members. One of the most interesting ones was Tom Thumb's wedding.

Business at the next meeting will include the election of officers.

The Grange closed at 10 p.m. with the retiring drill. The next serving committee will be Ferd Jones and Gabies.
