

THANKSGIVING

Shop SAFEWAY

A heart-warming Holiday! Family gathered together . . . everyone in great spirits, with children laughing, grown-ups reminiscing. From the kitchen, rich spicy fragrance of dinner in the making. At last, the parade to the table! Magnificent feast! The golden-brown of the big turkey. Ruby-red cranberries; fluffy whiteness of potatoes, yellow squash. Happy feast! And afterward — real Thanksgiving Day contentment.

Here's the Finest Money Can Buy!
YOUNG 1956-OVEN READY

TURKEYS

Quick freezing is the modern miracle that makes it possible for Safeway to bring you turkey at its best . . . Here's why: The birds go into the freezer within an hour after being completely cleaned inside and out! There's no chance for the meat to lose its "just dressed" flavor. All the preparation — killing, cleaning,

and freezing — is done as one continuous operation in specially span plants by skilled workers . . . under U. S. Department of Agriculture supervision . . . every step of the way — from selection of birds from the country's finest flock to their display in our stores.

These Food Favorites are TOPS with Safeway Turkey!

HINTS FOR THE HOLIDAY HOSTESS...

A THANKSGIVING-BOUNTIFUL CENTERPIECE:

Fill a hollowed-out pumpkin shell with crushed chicken wire and a few cups of water. Bake golden chrysanthemums of various sizes through the wire. Flank with tall rust-colored candles. Arrange autumn leaves and clusters of grapes on the tablecloth around the candles and pumpkin.

TO THAW YOUR FROZEN TURKEY:

A frozen turkey will thaw in approximately 48 hours if left in the refrigerator or about 12 hours at room temperature. Thawing may be hastened by running cold water over the turkey.

TO ROAST TURKEY:

Sprinkle the inside of the bird with salt; stuff neck cavity lightly. Pull neck skin to back over stuffing and fold ends of skin under, securing with a long skewer. Now turn bird with breast up and stuff body cavity loosely. To truss bird, draw body opening together with four or five skewers; lace with twine as you would a boat. Tie with knot and wind long ends of twine around legs, drawing tight, and then tie around tail.

Brush the bird lightly with fat, place breast side up on a rack in a shallow uncovered pan and put into an oven set at 325° F. Baste with pan drippings or melted fat once or twice during roasting. A thin cloth, moistened with fat placed loosely over the bird may be used to prevent overbrowning. Test for Doneness: When the leg joints can be moved easily and the flesh of the leg is soft and pliable when pressed with the fingers, the turkey is done. Allow about twenty minutes out of the oven before carving.

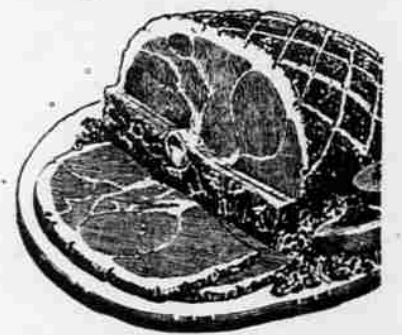

A GAY GARNISH FOR YOUR BIRD:

Your handsomely-browned bird is all the sabbler for a colorful, yet discreet, garnish. It might be no more than a bouquet of lively parsley tied to the drumsticks; it might be as much as a Della Robbia wreath of fresh, canned or spiced fruits encircling the border of the turkey platter.
