

Medford Squadron Plans Observance Of CAP Anniversary

The Medford Civil Air Patrol squadron will hold a week encampment at the Medford airport in observance of the CAP's 15th anniversary Dec. 1. Commander Hubert E. Curtis said the public has been invited to attend any of the encampment activities on either Saturday or Sunday.

Activities will begin with breakfast at 7:30 a.m. Saturday, followed by a squadron drill, aeronautics class, military courtesy class and lunch at noon. Communications class will be held at 1 p.m. and members of the squadron will have an air flight time between 2 and 4:30 p.m. if weather permits. Entertainment will be offered in the CAP building from 6 to 9 p.m. Coffee and cookies will be served.

Taps will be played at 9:30 p.m. Lt. Bette Miller and Commander Curtis will chaperone the group for the night.

On Sunday, squadron members will stand personal inspection at 9 a.m., after 7:30 a.m. breakfast, from 9 a.m. to 12:30 p.m. cadets will attend church, then return to the CAP building for dinner at 1 p.m. Flight time or squadron drill will be held between 2 and 4 p.m. The encampment will end after retreat at 5 p.m.

The Medford squadron has 45 registered cadets, 25 of whom are active. Ages range from 14 to 18. Objectives of the CAP are strengthening national defense and promoting the cause of aviation.

Boy Shot in Leg Near Portland Home

Portland—AP—Nine-year-old David Leslie Schlappie was shot in the leg with a .22 caliber bullet last night when he went after a newspaper near his east Portland home.

Another youth who accompanied Schlappie said they went to the mall box about 6:30 p.m. and heard a rustling noise nearby. They ran toward the house about a block when they heard a distant shot. Schlappie fell to the ground.

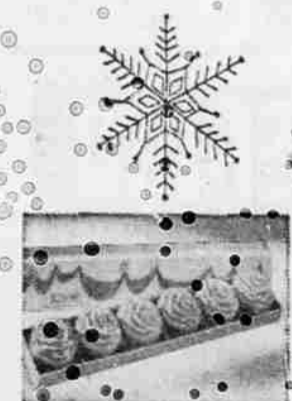

The boy was taken to the hospital where the bullet was removed.

Helicopter Frees Ice In Central Oregon

Portland—UPI—A helicopter is being used to free ice from telephone lines in central Oregon.

The Pacific Telephone and Telegraph Company said that an ice coating two to three inches thick formed on long-distance lines, causing some "delays" in service. So the copter was put to work south of Redmond.

The company said the down-draft from the rotor blades of the helicopter blasted the ice off the wires.
