Parker 61

The only fountain pen that fills itself
by itself—it has no moving parts

In its first Christmas Season, the Parker 61 is
the distinguished gift for those friends who appreciate
the new, the unusual—quite flattering to
them and to you.

The Parker 61, with its frankly revolutionary
capillary ink system, fills itself, writes effortlessly,
dependably—even on a high-flying plane.

You have a choice of rich colors and gleaming
caps—all strikingly beautiful. The Parker 61 is
\$20 or more.

The Parker 61, alone among fountain
pens, fills itself by itself. It fills itself
clearly—through the end opposite the
point. It's done by capillary action in just
10 seconds—the shining point need never
be dipped in ink.

A prescription is a combination
of several drugs, carefully se-
lected, measured and com-
pounded. But the efficacy of
every prescription depends upon
an ingredient that can't be
seen, weighed or measured. It
is the skill of the dispensing
pharmacist. A full measure of
this priceless ingredient goes
into every prescription we fill to
guarantee that your medicine
will be exactly as your doctor
intended it to be.
