

Eight Men Rescued From Umpqua River

Reedburg — (U.P.) — Eight men, stranded atop a logging truck for several hours when the south Umpqua river rose rapidly yesterday afternoon, were rescued yesterday afternoon by Tillier.

The loggers had stood on their tiptoes as the flooding stream rose around the stranded truck. Finally, others managed to haul a rope to the truck after the river dropped four feet, almost as fast as it had risen. Five of the men were pulled to safety by the rope and the other three swam to shore.

AVIATION STIMULANT

Washington — (U.P.) — The Army, whose aviation program was curbed recently by the Defense Department, will hold an all-Army model airplane meet next August. The Army said one purpose of the meet is to stimulate interest in Army aviation.

BARGAIN IN STAMPS

San Diego, Calif. — (U.P.) — Mail sorters were puzzled when Mrs. Mary E. Erwin posted a letter with three \$1 stamps on it for three-cent delivery across town. Mrs. Erwin said a postal clerk had sold her 15 of the new \$1 stamps for 15 cents.

Sack Execution Stayed by Court

Salem — (U.P.) — Execution of George F. Sack, Portland, was stayed yesterday by the State Supreme Court.

Sack, a former apartment house owner, is under death sentence for slaying his wife, Goldie, in February, 1954. He was scheduled to die Friday in the penitentiary gas chamber.

Sack filed a notice of appeal to the U. S. Supreme Court last Friday. Previously, the State Supreme Court had upheld his Multnomah county conviction and denied him a rehearing.

More Tape Cut In Oil Shipments

Washington — (U.P.) — The administration Tuesday night cut more red tape from the government-industry plan to make emergency oil shipments to Europe.

At the same time, Defense Mobilization Arthur S. Flemming defended the plan from anti-trust criticism by Sen. Joseph C. O'Mahoney (D-Wyo.)

The plan involves industry pooling of tankers and oil, resources and swapping of markets. Attorney General Herbert Brownell Jr. approved it reluctantly.

Flemming said the government "shares the concern" expressed by O'Mahoney. But he said the national security interests involved in getting oil to Europe and other countries cut off from Mid-East supplies by closing the Suez Canal "outweigh" the anti-trust interests.

He added the government "will not allow any companies to do anything contrary to public policy."

Japan Resumes Russia Relations

Tokyo — (U.P.) — Japan resumed formal diplomatic relations with Russia today, 11 years after World War II.

In a ceremony at the foreign office, Japanese Foreign Minister Mamoru Shigemitsu and Soviet Deputy Foreign Minister Nicolai Federenko exchanged instruments of ratification formalizing the joint peace statement signed in Moscow Oct. 19.

The action set into motion a train of events which may erase the bitterness and heartaches Japan had experienced at the hands of Russia since Moscow scrapped its neutrality pact with Tokyo on Aug. 8, 1945, and overran the already crumbling armies of Japan in Manchuria.

Dr. Dickman Named New Psychologist at Child Guidance Clinic

Dr. Harold R. Dickman, psychology professor at the University of Oregon, has been named new clinical psychologist at the child guidance clinic of the Southern Oregon Child Guidance Clinic association, it was announced at a recent association board meeting.

Dickman replaces Dr. Norman Sundberg, associate professor in charge of graduate training of the University of Oregon psychology department. Sundberg resigned because duties at the university conflicted with his clinic schedule.

The new psychologist has had experience in the doctoral program at the University of Kansas and in the testing program at the Kansas City child guidance clinic. He teaches child and adolescent psychology at the university and is working in the student health service and the child guidance clinic there.

Mrs. Melvin Hall was named as chairman of a committee to plan the 1957 annual meeting. The committee will be selected later.

The board soon will consider possible candidates for seven directors leaving the board this year according to Elliott Becken, nominating committee chairman.

Board members leaving are Mrs. Dwight Houghton, Mrs. Phil Engle, Dr. Aubrey Hill, the Rev. Ross Knotts, Robert Minear, A. N. Potter and Mrs. Carl Wimberly Jr.

Harry K. Danielson, clinic

psychiatrist, announced at the meeting he will be gone a week in March to attend the American Orthopsychiatric conference in Chicago.

Mrs. Roland Holmes said the community membership chairmen reported 220 renewed memberships in the association and 142 new members from the area surrounding Medford.

Marked Rise Noted In Venereal Disease

Chicago — (U.P.) — A marked rise in venereal diseases among teenagers with about 200,000 youths infected annually was reported Tuesday night by a New York City health official.

Dr. Jules E. Vandow, social hygiene division chief of the New York City Health department, said studies have shown an increase in syphilis and gonorrhea among children 10 to 19 years old during the past four years in such areas as Illinois, California, Michigan, Ohio and Tennessee.

He said venereal disease has doubled in some states among girls aged 15 to 19. In New Jersey, the state health department estimates that one of every 100 youngsters in the 15 to 19 age groups is infected with gonorrhea, Vandow said.

Vandow spoke at a meeting of the American Academy of Dermatology and Syphilology here.

SERVICE

Petoskey, Mich. — (U.P.) — Fred Zipp Sr., confined to his home while recovering from surgery, decided not to go hunting this

year. But when an eight-point, 150-pound deer bounded across his back yard, Zipp called for his gun and shot the deer from his back porch.

Le Mans, France — (U.P.) — The 1957 Le Mans auto race, which will count towards the world sports car championship, will take place June 22 and 23.

New 1957 Westinghouse

PICTURE WINDOW TWINS

AS LITTLE AS

\$350

PER WEEK

To own a Laundromat*
Slightly more per week
for Twins

NEW REVOLVING AGITATOR. Eliminates the old center post with its jerk-jerk motion. Clothes are placed inside the agitator, which revolves constantly. Lifts, turns, plunges clothes 50 times a minute. It's the New Way to Wash—and years ahead.

SOAP 'N' WATER SAVER. Measures water to the last drop, shuts off automatically when there's enough for the load.

WEIGH-TO-SAVE DOOR. Acts like a scale—weighs the load to tell where to set the Soap 'n' Water Saver.

DRYER HAS:

DIRECT AIR-FLOW DRYING. Fastest, cleanest, thriftiest—the only system that blows fresh, warmed air directly on the clothes, not through machinery. Plugs in anywhere. No need for special wiring.

BOTH TWINS HAVE:

COLOR GLANCE CONTROLS. Built-in, light-up Laundroguides—flexibility of operation that no other pair can match at any price.

SLANT-FRONT CONSTRUCTION. Saves stooping and bending.

Westinghouse recommends

all

prescribed to
Automatic Washers

CONTROLLED SUDS for cleaner wash

303D

For best washing results, Westinghouse recommends all with "controlled suds." Laboratory tests prove that all gets clothes cleaner because more dirt rinses out, all was used exclusively in developing the New Way to Wash and is approved for use in the Laundromat* by the Westinghouse Home Economics Institute. For big savings, buy all from your dealer in 50 or 100 lb. sizes!
