Best Dressed Women Named

New York — (U.P.) — Two of the hardest perennials won and placed as the best dressed women of 1956 today and a relatively new addition, the American Princess of Monaco, showed.

Mrs. William S. Paley, who has been prominent on the list for 11 of the past 16 years, topped for the fourth consecutive year the list of best dressed women compiled by the New York Dress Institute.

Mrs. Paley, wife of the chairman of the board of Columbia Broadcasting System, is the former Barbara Cushing of Boston.

Miss Grace Kelly of Philadelphia and Hollywood tied with Mrs. Paley for first place last year. Miss Kelly, now Princess of Monaco, was nosed out for second place this year by another American bride of royalty, the Duchess of Windsor, who first appeared on a best dressed list in 1935 as "Mrs. Ernest Simpson, often seen with the Prince of Wales." The princess was third.

Three other actresses were on the list which included 14 names — 12 places instead of the usual 10 and two ties.

Mrs. Winston Guest, the former Lucy Cochrane of Boston, was fourth and Hollywood's Marlene Dietrich and Audrey Hepburn tied for fifth.

Mrs. William Randolph Hearst Jr. of New York, was sixth. Countess Consuelo Crespi, of Rome, the former Consuelo O'Connor of New York, was seventh and Rosalind Russell, of Hollywood, eighth.

Princess Margaret and her aunt, the Duchess of Kent, tied for ninth. Madrid's Countess of Quintanilla, the former Mary Elaine Griffith, of Rockland County, N.Y., was tenth and Mrs. Henry Ford II, of Detroit and New York, eleventh.

Countess Mona von Bismark, of Paris and Capri, was twelfth. It is the first time she has been listed since 1949.

Last on the list this year, she was on most best dressed lists from 1933 to 1949 as Mrs. Harrison Williams of New York. After the death of her husband, she went into retirement and did not return to society until recently.

Life of Iron Depends On Care Sole Receives

Ames, Iowa — (U.P.) — The life of an electric iron may depend on the care its sole receives from the housewife, says an Iowa State home economist.

Naomi Shank, extension equipment specialist, said the iron needs protection from scratches and dents. Don't scrape off sticking starch with a knife or other sharp tools.

If the iron does collect starch, cool before beginning to clean. Then use a very fine steel wool or damp cloth with non-abrasive scouring powder.

Buff the plate vigorously with a dry soft cloth after working it with steel wool. Then heat it slightly, apply beeswax or paraffin and cool.

Another dry cloth buffing will remove excess paraffin, which will guard against further sticking starch.

The life of Dr. Albert Schweitzer, noted missionary doctor who received the Nobel peace prize for his work in French Equatorial Africa, is described in a new biography, "Albert Schweitzer: Man of Mercy," which has been added to the Medford Public library.

"Empty calories" is the term nutritionists apply to foods that provide energy but are poor in protein, minerals and vitamins.
