Not just for the lazy ones

THE ROLEX OYSTER PERPETUAL, although it winds itself, was primarily developed because a self-wound watch is more accurate than a hand-wound watch. The tension on the mainspring is much more constant, much more even. And the remarkable accuracy of its precision movement is perfectly and permanently protected, even against dust and humidity and all other harmful elements, by the 100% waterproof Oyster case.

ROLEX
GENEVA · SWITZERLAND

For the most accurate, waterproof, self-winding Chronometer... men who know select the Rolex Oyster Perpetual. It's without peer in watch craftsmanship. Worn but six hours a day the "perpetual" never needs winding.

THE ROLEX RED SEAL indicates that the chronometer to which it is attached has passed the tests of the Swiss Government Testing Stations and has been awarded its own Official Timing Certificate.
