

Distribution Plan Is Approved by City PTA Council

Medford Council of Parents and Teachers at its January meeting held last week at the YMCA building, passed a resolution approving the principles of the school distribution plan as recommended by a committee from the state board of education studying the problem.

Leonard Mayfield, school superintendent, presented the proposed plan which would change the present school law by establishing a minimum basic program at an equalized cost to the tax payers of the state.

Mrs. Leigh Gustison, regional vice-president of the Oregon Congress of Parents and Teachers, and Mrs. John Benson, state parliamentarian, outlined the recommended changes in the Oregon congress by-laws by which the city councils would become coordinating committees within the framework of the county councils.

It is believed that such coordinating committees could give valuable service to both the PTA units and school administrators without being burdensome as to finances and numbers of meetings, as well as avoiding duplication of county council programming, work shops and leadership training.

It was announced that the state convention for the Oregon congress will be April 9 through 11 at Pendleton.

Plans are being made to charter a bus from Jackson county for those who will attend from here.
