The Medical Roundup

A Rug with Toys on It

I often marvel when I see people come up with a new idea that no one had ever thought of before. One of the problems that mothers with small children face when they go into a hospital to see someone or to be examined is that of parking one or more children. Usually hospital rules forbid their entering a sickroom; the child can so easily bring in a bad virus of some kind.

I was just reading that in the Lennox Hill Hospital in New York some bright person put down a rug with plenty of toys on it and got some good volunteers to oversee the activities of the children placed on that rug. The women distribute the toys; they wipe noses, they dry tears, and they stop fights. Now, with the children playing on the rug, one doesn't hear the constant admonitions of "don't touch, don't run, don't shout." There are so many things to do on the rug—what with toys, paper and scissors for cut-outs, and plastics for moulding, that the children are happy. The mothers are happy because they know the children are being well cared for.

One point about such a project is that the hospital wouldn't have to buy a lot of expensive new toys. Anything that looks like a toy is likely to be fascinating if it is new to a particular child.

In the opinion of the American Academy of Pediatrics — a group of physicians who specialize in the care of children — teen-age boys are not ideal subjects for football. Most persons do not know that our long bones in the legs and arms grow from two ends, called epiphyses. If one of these epiphyses should get knocked off in a football game, the bone is likely to stop growing, and that will mean a short arm or leg.

Many a boy is not built ruggedly enough to stand the severe blows he must take on the football field. Any surgeon of experience knows of boys, who, in a football game, have had their spleen or a kidney torn in two. Many get their knees badly injured. Those boys who have inherited a tendency to fibrositis or arthritis are poor candidates for football teams because, with any bad blow, they are likely to be laid up for a while with painful muscles, tendons and joints.

All of this advice is probably of no value because most fathers haven't the heart to deny their sons the coveted right to play football.

Dr. Alvarez hopes his readers will understand that it would be impossible for him to answer requests for information or to attempt to diagnose by mail.

Israel Asked to Quit Gaza Strip

United Nations—(U.P.) — The General Assembly has voted almost unanimously for a new resolution calling again on Israel to quit Egypt and the Gaza Strip entirely.

The resolution, ambiguously worded, required Secretary-General Dag Hammarskjold to submit a compliance report within five days.

It was adopted by a vote of 72-2 with two abstentions. Israel and France opposed it. Costa Rica and Cuba abstained.

As soon as the unusual Saturday session ended, Hammarskjold contacted the Israeli and Egyptian delegations and told them he would be available yesterday afternoon and today for talks. Informed sources said he also might see representatives of some other delegations.

SUSPICIONS CONFIRMED

San Francisco — (U.P.) — A dental clinic is considering one method of treatment which tends to confirm the suspicions of patients everywhere. The subject is "spot welding."

COLLAPSING FROM EXHAUSTION, Actress Marie McDonald is comforted by Michael Wilding, her new boy friend, after testifying for 3½ hours before Los Angeles grand jury on asserted kidnaping. (International)

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne*)—discovery of a world-famous research institute.

This substance is now available in *suppository or ointment form* under the name *Preparation H.** At your druggist. Money back guarantee.
