Cat at Hotel — Medford hotel took in an unusual "guest" last night— a stray cat. Manager Harry Watson reported this morning that the animal, obviously not just an ordinary cat, had been seen around the hotel for two days and because of the bitter cold, the staff took it in last night, fed it and made it a warm bed in the basement. Watson believes the animal is a pet strayed from home and anyone losing a cat may call the hotel, he said.

Plumbers Install Sewer Line at 'Bee'

Twelve Medford plumbers held a "sewer laying bee" last Saturday morning and in less than two hours laid a line which would have taken a regular crew longer. The men dug the ditch, laid and connected the pipe, filled in the ditch, and put the lawn back in place.

The act which harks back to the pioneer days of cabin raisings and quilting bees, was performed for Mr. and Mrs. Lyman W. Robinson, 308 Lynnwood ave.

When Mrs. Robinson, bookkeeper for Modern Plumbing company, and her husband were faced with the necessity of connecting their house to a new main-line sewer, the men of the firm planned the "party."

The work was done on their day off and in sub-freezing weather. When the job was completed, the Robinsons served the crew sandwiches, cake and coffee as a reward.

Workmen who laid the line were Don Johnson, Sterling Miller, Lowell DuBois, L. A. Pritchard, E. S. Bowers, Bill Newton, Russell Mix, Bob and George Ratliff, Harry Den-Herder, Ernest Nelson and Ronald Bertram. The grateful Robinsons decided the kind act deserved recognition.

Confusion Reigns In Army Barracks

Hamburg, Germany — (U.P.) —Confusion is the order of the day in a U.S. Army infantry company barracks here where the roster lists four men named Barton, officers said today.

They said the situation wouldn't be too bad except for the fact that two of the Bartons are twins; Chester Quinton and Lester Clinton.

Chester and Lester are from Bethany, Okla. The others are Jerry D. Barton of Springfield, Mo., and Robert B. Barton of Little Rock, Ark.

At 18,000 feet the pressure of the atmosphere is said to be about one-half of the pressure at sea level.
