### Cinnamon Drops Are Quick Cookie Treat

Satisfy that desire for a cookie treat with these molasses drop cookies that have a baked on coating of cinnamon sugar. Mugs of cold milk are a must with these while they're still warm from the oven. Fine later, too. Five dozen two-inch cookies. 3½ cups sifted enriched flour ½ teaspoon soda ½ teaspoon salt ½ cup shortening ½ cup sugar 1 cup molasses 1 egg ¼ cup boiling water 1½ teaspoons cinnamon ¼ cup sugar

Sift together flour, soda and salt. Cream together shortening and sugar until light and fluffy. Add molasses and egg. Beat thoroughly. Add boiling water and mix. Add flour mixture to creamed mixture gradually, mixing well. Drop by teaspoonfuls into cinnamon sugar made by combining the cinnamon with the one-fourth cup sugar. Bake on greased baking sheet in moderate oven, 350 degrees, 12 to 15 minutes.

### Cranberry Fluff Easy on Calories

We particularly like this because it is low in calories and has just the right amount of tartness to satisfy that craving many people have following a heavy meal. This light and frothy cranberry fluff recipe features whipped instant nonfat dry milk. That's what brings the calories down but keeps the nourishment up. Eight servings. 2 cups (1 pint bottle) cranberry juice cocktail ½ cup light corn syrup 1/3 cup water 1/3 cup instant nonfat dry milk powder

Combine cranberry juice and corn syrup. Pour into refrigerator tray; cover with waxed paper. Place in freezing compartment until crystals form around edges of tray. Pour water into deep one-quart bowl. Sprinkle milk powder over surface. Beat with rotary beater or electric mixer until stiff, about eight to 10 minutes. Scrape cranberry mixture into large bowl. Beat until smooth. Fold whipped nonfat dry milk into mixture. Place in two refrigerator trays. Freeze until firm, about two hours.

### Apple Saled Combinations

All fruits and many vegetables combine delightfully with apples to make fresh crisp salads and exciting looking gelatin molds. Combined: chopped apple, shredded carrots and celery... chopped apple, pineapple, bananas and chopped nuts... chopped apple, marshmallow bits, raisins, figs or dates... chopped apples, cottage cheese, chopped almonds or pecans... sliced apple, avocado oranges and maraschino cherries... chopped apple, shredded cabbage, raisins, lemon juice... chopped apple, flaked salmon or tuna, celery and walnuts. Apple salads may be blended or served with mayonnaise, sour cream, salad dressing or French dressing. Mayonnaise and the thicker salad dressings may be thinned with cream or fruit juices. Sweetened whipped cream may be used as a topping.

### Tea-Time Ideas

Take a loaf of pound or raisin cake, slice very thin and spread with a mixture of thinned cream cheese and lemon or orange rind.

Frankfurter rolls make excellent small tea sandwiches. Slice a roll lengthwise twice to make three layers. Spread with your favorite sandwich filling. Replace layers, then cut vertically one-fourth to one-half inch thick. Lady fingers dipped in colored icing and sprinkled with chopped nuts, chocolate sprinkles or coconut are delicious, colorful and add a festive air to tea time.

Horseradish Sauce. Zestful for meat loaf of any kind or ham in any way. Be sure the horseradish is fresh. Horseradish is a product that should be used up; not permitted to waste its strength standing around.

Chill one-half cup evaporated milk thoroughly. Whip until stiff and add 1½ tablespoons lemon juice slowly, then one-half teaspoon sugar and whip until very stiff. Fold in two tablespoons fresh horseradish. Serve with meat and/or pass in sauce boat.

Western Cheese Puffs. Blend one-half pound medium aged cheese, grated, with one-half cup butter. When well blended, mix in one cup flour and one-fourth teaspoon salt. Chill in refrigerator for about an hour, longer if more convenient. Roll teaspoonful of mixture into small balls; place on cookie sheet and bake at 450 degrees for 15 minutes.

### February Markets Feature Eggs, Poultry, Dairy Products

Eggs and Poultry. Yes, eggs and poultry will continue to be "best buys" in protein during February, as hens continue to work overtime. So indulge yourself in fluffy souffles, sponge cakes, meringues and other egg specialties. The quality of February egg production is excellent and temperatures normally are cool enough to keep eggs in top condition. Fryers, broilers and stewers are in good supply and indications are they will continue to be.

Dairy products will be plentiful with special emphasis on canned evaporated milk and easy to use nonfat dry milk. Cheese of many types including cottage cheese and processed cheese will be available at excellent prices to assist the budget minded homemaker.

Plenty of honey, nature's oldest sweet. To make the best use of honey keep it in a tightly covered container in a dry place at room temperature; this means between 70 and 80 degrees. The cover is necessary because honey loses aroma and flavor and absorbs moisture and odors readily when exposed to air. If it crystallizes, just place container of honey in pan of warm water until crystals disappear. Rice. This economical staple food is increasing in production and usage as more and more users discover that new methods of preparation are faster, easier and results better than with many of the old familiar ways. Meat Department. There will be many good buys in beef es-

**Fruit Buys.** Attractive prices mark grapefruit and oranges, fresh and processed. This is the season of the year your family needs the extra vitamin C found in citrus fruits. Look: apples cost the least and there are good supplies of those fine Northwest apples along with Winter pears.

**Vegetable Buys.** Cabbage, cauliflower, carrots, lettuce, onions, potatoes and squash. Scan advertisements. Note displays.

**NO SUMMER HERE**  
Hollywood, Calif. — (U.P.) — Sunny California wasn't sunny this week. Snow, frozen ground and cloudy skies forced film makers to cancel outdoor location scenes which were supposed to depict Georgia in summer.
