Stocks Turn Lower After Early Gains

New York—(U.P.)—Stocks turned lower today after early gains. Railroad issues led the downturn and their average set a new low since March 21, 1955.

Utilities alone of the major groups managed to hold a gain, aided by a substantial recovery in Peoples Gas.

Steels felt the pinch of the late sell-off. Youngtown lost more than a point. U.S. Steel slipped a point and others in this group were off fractionally.

Aircrafts, chemicals, metals, motors and miscellaneous issues all were knocked down from their highs.
