

Gold Hill Council Approves Request For Drainage Tile

By MRS. CLYDE KELL
Gold Hill — Mayor Ernie Cooper presided at a meeting of the Gold Hill city council Monday, Feb. 4.
The council approved a request for installation of underground drainage tile along the north side of Fifth ave., beginning at Sixth st. and extending to the present catch basin on Fifth ave.
Chief of Police Floyd Taylor reported on various work the city had accomplished during January. Permission was granted Taylor to hire his son, Willard Taylor, to replace Don Clemence, who resigned.

No Census
Because growth of the city since the last population estimate was made in 1935 has not been great enough to warrant the expense of taking a census this year, the council directed Recorder Ferd Jones, to inform the state board of census concerning the matter.
A contract was awarded the Pennsylvania Salt company to furnish chlorine to the city for the year starting April 1937.
Delores Walker and Donald Morrow, local businessmen, were named to the budget committee for the term ending July 1, 1939.

The council will further consider the problem of what action to take, if any, in cases where private wells are dug and owners disconnect from the city water system. The water committee is made up of Truman Price, Virgil Gribble, and Harry Foley.

The matter of installing a sewer behind the McHargue and other properties was again brought up. Further investigation will be made regarding the direction, such a sewer would run.

Great Lakes Area Temperatures Skid; Northwest Warmer

By UNITED PRESS
Rain, fog and drizzles penetrated most of the eastern half of the nation today and frosty air slipped over the Great Lakes states.

The nippy weather sent above freezing temperatures sinking down below the zero mark early today. Grand Marais, Mich., reported six below zero shortly after midnight after registering a balmy 30 the same time the night before.

The Central Plateau and Northwest warmed up a bit. Mercury climbed from 10 to 20 degrees higher on thermometers than the previous night's reading. Baker, Ore. chalked up a 31 degree reading early today as compared with its 3 above zero the day before.

Showers Along Coast
Light showers trickled along the Pacific Coast and over the plateau region. A belt of soggy weather stretched from parts of the Central Plains eastward through the Mississippi Valley to the Southern Great Lakes. Thunderstorms snarled over most of the drought-stricken Southern Plains and the South Atlantic coastal states.

The heaviest rainfall in the country Thursday night drenched Southern Missouri and Northern Arkansas. Amounts at some stations exceeded one-third of an inch. Parts of Iowa were soaked with a freezing drizzle. Snowflurries fluttered into Northern Nevada and Southern Idaho but little more than an inch fell in most spots.

OLD CRIB USED
Hollywood—(U.P.)—The crib used by thumb-sucking actress Carroll Baker in Warners' controversial "Baby Doll" was found by the studio prop department in a secondhand store in Benoit, Miss. The cast iron, pink crib was made in 1846, according to markings on the metal.
