Around Hollywood

By ALINE MOSSBY

Hollywood — (UP) — Any man who can parlay a record shop in a Tennessee town into a \$3 million Hollywood record company that hires Tab Hunter and Marlene Dietrich deserves to be called the young genius of the year.

Four years ago Randy Wood was selling records in Gallatin, Tenn. For laughs he made a few recordings on the side.

Today Dot Records, the company that grew out of that experiment, is installed in fancy offices on the corner of Vine st. and Sunset blvd. It was the largest single record seller in 1956—passing up giants such as Victor and Columbia.

Dot's 75 artists, including Miss Dietrich, Hunter, Pat Boone and Gale Storm, helped the fledgling company gross \$8 million last year. Today Wood, his wife and three children live in a plush Beverly Hills home and

Passaic, N. J. — (UP) — Mrs. Ruth Li Brizzi telephoned police today to report she had driven home in an automobile resembling one owned by her sister, Irene. A police official told her: "Sneak back in the car. Be nice and careful. Take it back where you found it." It worked. There were no stolen auto complaints.

attend swank Hollywood parties. "Sometimes I have to pinch myself to make sure it's all true," Wood said as he sat in his handsome office.

Wood, from Morrison, Tenn., went to Middle Tennessee State College and planned to be an electrical engineer. In 1946 he opened a radio and appliance business in Gallatin and worked into a mail order record business.

Experimental Record Scores
After one of his experimental records became a hit (The Hill-toppers singing "Trying"), he went into record-making full-time. His neighbors in Gallatin must have been stunned by their rapid success. Next thing they knew Wood was hiring Gale Storm ("My daughter heard her sing on TV.") and Pat Boone ("He came to Tennessee to ask for a job. I hired him without even hearing him sing because he had sincerity.")

Seven months ago he got tired of traveling around the country to the major markets and moved the business to Hollywood.

The 38-year-old Wood thinks he was able to sell 14 million records last year because "the artists are wonderful and we try to use songs people like."
