Have you ever, when paying for something in a hurry, mistaken a \$5 bill for a \$1 bill? Or made a similar error in other denominations? What do you think of an idea of withdrawing all green colored currency and then issuing new notes with a different color for each denomination? That very brilliant lady, Congresswoman Edith Nourse Rogers, once campaigned for this idea with no success. I think it is a very good idea.

**Among the Married**  
An increasing number of married couples, and those about to marry, consider four children in a family the ideal number. Are they right? Limiting births in that manner may prevent those so doing from becoming the parents of a genius. Also deprive the world in general of a genius. Ben Franklin was a tenth child. So was Coleridge. Sir Walter Scott and Thomas Gainsborough were eighth children. Johann Sebastian Bach and Sir Joshua Reynolds were seventh children. Emily Bronte was the fifth child of her parents. So were Charles Darwin, Oliver Goldsmith, Voltaire and Rembrandt.

**Longevity**  
The Bulgarians are the longest lived people in Europe. There is a record of a Bulgarian woman who, at the age of 82, married for the first time. That's really waiting for the right man to come long. At 104 this woman was still happily married and looking forward to her silver wedding. She smoked for over 50 years and was also a moderate drinker of alcoholic liquors. She was not a vegetarian.

**Asking**  
Queries from clients. Q. Come, come Edgar, the time for the Santa Anita Handicap draws near. The winner, please, A. Llangollen Farm entry—Mister Gus and Porterhouse. Whether both or only one starts. Porterhouse doesn't care for an off track. Q. Is Ingrid Bergman a United States citizen or still a Swedish citizen? A. She is now an Italian citizen.

**Horses and Women**  
"What first attracts us in a woman rarely binds us to her," said Churton Collins. How right he was! His observation is something the "oomph girls" should keep in mind. Their beauty will attract a husband but it will take something more than that to hold him. A surprising number of truly beautiful ex-wives are carrying the torch for husbands they couldn't hold with their physical charm alone.

**Lillian's Club**  
Ever hear of the "Lucky Double L Club"? That was made up of people having the double L in both first and last name. Lillian Russell originated it. If there were a similar organization today Lucille Ball would be a candidate for president.

**Sidelights**  
What does a taxi driver consider a fair tip? A New York taxi driver says the minimum tip should be 25 cents on fares up to \$1. After that, 25 per cent of what is on the meter. . . . Bing Crosby's first solo record was one of the songs titled "Muddy Waters." It was made in 1926 and is now a collector's item.

**Over the Bridge**  
In Brooklyn there is a barber shop which, although it adheres to a "hair cuts only" policy insofar as its tonsorialists are concerned, furnishes free all the necessities for customers who wish to shave themselves. Good old Brooklyn!

**In a Few Words**  
It was Justice McCardie who observed, "By binding himself in matrimony, a man receives little or no benefits from the law. He incurs responsibilities so vast that no man could contemplate them without the rosy-tinted spectacles of love."

**'Girlesque' Chances Dim at Portland**  
Portland — (U.P.) — Portland's chances of having a return of "girlesque" performances appeared dim Friday in light of an announcement by Police Chief William J. Hilbruner that he still does not favor licensing such an establishment.

Representatives of the police chief and Mayor Terry Schruk took in a preview performance of the intended show this week and made reports back to their superiors.

A new potato variety developed by the North Dakota Agricultural College Experiment Station will be released in 1956.

### Keating Speaks at Farm Bureau Meeting

County Judge Rodney Keating discussed county problems at a Talent Farm Bureau meeting at Valleyview school last week.

Keating reported the state highway department is planning to install a traffic light at the intersection of Valleyview drive and Highway 99. This area of the county also will have a change in voting precincts, he said.

Taxation was discussed at the meeting and more information was requested before the group would consider action on several bills now pending in the state legislature.

The bureau approved a House Bill pending at state legislature for ragweed eradication and stipulated Jackson and Umatilla counties be included in the bill. They are now omitted.

The group indicated they felt eradication efforts are important in infested areas in order to control spreading.

**Snider's Dairy Takes Awards at Corvallis**

### Democrats Adopt Policy Resolution

San Francisco — (U.P.) — The Democratic National Committee Friday adopted a resolution ratifying the National Advisory Council as the policy making body for the party between conventions.

The action was seen as a move by northern liberal elements of the party to weaken party influence of southern conservatives who are members of Congress.

The resolution, presented by C. Girard Davidson, national committeeman from Oregon, said the council, already appointed by Chairman Paul Butler, should be the voice of the National Committee in the absence of a Democratic President.

The resolution was passed over the objections of two representatives of Southern states.

### Future Farmers Set Television Program

Jackson county chapters of the Future Farmers of America, including members from Crater High school, Phoenix and Eagle Point, will appear over KBES-TV at 6 p.m. Wednesday, Feb. 20.

The program is to focus attention on local projects of the FFA as an activity of National FFA Week, Feb. 16 to 23. High school students who plan a vocation in agriculture comprise membership of most local FFA chapters, according to Ed Griggs, vocational agriculture instructor at Crater.

Chapter activities are designed to help develop rural leadership, good citizenship, stimulate achievement in study and help members toward successful establishment in farming, Griggs said.

Membership of the three chapters in Jackson county total 172. Presidents of local chapters are Robert Hayes, Eagle Point; Archie Trot, Phoenix; and Bob Eldon, Crater.

The Jackson county vocational agriculture instructors met last week to discuss plans for the 15-minute program. Attending were Nat Eitel, Eagle Point; Jack Dube, Phoenix; and Bill MacFarlane and Griggs, Crater High school.

Employees of Ford Motor Co. have earned \$4,451,252 for their ideas submitted under the employee suggestion plan since the plan was started nine years ago. Awards range from a few dollars to a maximum of \$3,000.
