The Medical Roundup

by *Walter Alvarez*

Emeritus Consultant in Medicine, Mayo Clinic
Emeritus Professor of Medicine, Mayo Foundation

Few Parts of Our Brain Are Indispensable

At the recent meeting of the famed Association for Research in Nervous and Mental Disease my friend, Dr. Harold G. Wolff of Cornell and his team of doctors, Chapman, Berlin, and Guthrie, said that when one part of a man's cerebrum (main mass of the brain) is destroyed by a tumor or an operation, other parts do a wonderful job of taking over. The doctors told of persons like a certain physician, a chief of police, a journalist and a college professor who are still able to do their work after the removal of a large tumor from the front of their brain.

Nitrogen Mustard for Lung Cancer

Recently, Dr. Henry K. Schoch, of the University of Michigan, said that a drug called nitrogen mustard has worked so well in cases of inoperable cancer of the lung that he now prefers it to irradiation. He said that up to 75 per cent of the patients are helped. This treat-

Treatment for a High Blood Cholesterol

Dr. Charles F. Wilkinson Jr., of New York, recently announced in Chicago that often a mere glance at the liquid serum or plasma of the blood of a man with hardening of the arteries (together with a tendency to a coronary attack) will show that it is milky because of its abnormally large content of fat. A person with such milky blood ought immediately to quit eating most of the animal fats, such as butter and cream, and the fat from beef and lamb and pork.

According to a team from the Mayo Clinic, headed by Dr. Wm. B. Parsons Jr., large doses of nicotinic acid will help in decreasing the amounts of the dangerous cholesterol (a fatty substance) in the blood. Dr. John Gofman, of the University of California, lowers blood cholesterol titer by giving thyroid substance.

Dr. Alvarez hopes his readers will understand that it would be impossible for him to answer requests for information or to attempt to diagnose by mail. (Released by The Register and Tribune Syndicate, 1957)
