**CONSTIPATED?**  
New laxative discovery un-locks bowel blocks without gag, bloat or gripe

Constipation is caused by what doctors call a "thirty" colon that, instead of retaining moisture as it should, does the opposite: robs the colon of so much moisture that its contents become dehydrated, so dry that they block the bowel; so shrunken that they fail to excite or stimulate the walls to purge that propels and expels waste from your body.

To regain normal regularity, the dry, shrunken, constipating contents of your colon which now block your bowel must be re-moistened. Second, bulk must be brought to your colon to stimulate it to a normal urge to purge.

And, of all laxatives, only COLONAX, the amazing new laxative discovery possesses COLONAX's great moisturizing capacity, plus COLONAX's stretch-stimulating bulk. So effective it relieves even chronic constipation overnight. COLONAX is yet so smooth, so gentle it has proved safe even for women in critical stages of pregnancy.

Superior to old style bulk, salt or drug laxatives, COLONAX neither gags, bloats nor grips; won't interfere with absorption of vitamins and other valuable food nutrients; in clinical tests, did not cause rash or other reactions.

It's a physiological fact: Exercise tones your body! And COLONAX exercises your colon to tone it against constipation, overnight! Get COLONAX, in easy-to-take tablet form at any drug counter, today! Only 98c for the 60 tablet package, brings positive relief at less than 2c per tablet.
