Nutritious Dishes Prepared With Milk

One of the easiest ways to include more milk in the diet is to serve dishes prepared with milk. There are many ways in which milk can be included in daily menus. Use it to make gravies and soups instead of water. Serve creamed dishes for lunch such as creamed tuna, chipped beef or vegetables over cheese biscuits, and don't forget a creamed vegetable with your dinner menu.

Milk-made desserts such as puddings, custards and frozen desserts are a pleasing light finish to hearty winter meals. When preparing cooked cereal for breakfast, use milk as all or part of the liquid. Serve it with brown sugar, raisins or dates sprinkled over the top, and plenty of rich milk or cream.

The daily quota of milk is four glasses for children, 2 or 3 glasses for adults.

Letter Delivered With Half of Stamp

Brookings, S. D.—(U.P.)—Post office officials took a second look—and then forwarded the letter. But they warned they won't be so generous again.

Thomas R. Lyons of the staff said the letter, mailed in Brookings, had half of a six-cent airmail stamp and alongside the neatly cut stamp was written the instruction to "send it regular mail."

They did, although postal regulations provide that over half a torn (not cut) stamp must be on an envelope.

Vaccine Program Public Relations Discussed at Meet

Dr. Florian J. Shasky, public relations chairman of the Jackson County Medical society, discussed public relations of the recent free Salk polio vaccination program in Jackson county yesterday noon at the Jackson County Chamber of Commerce Roundtable luncheon.

Purpose of the public relations campaign was to end "public lethargy" concerning the Salk shots, Dr. Shasky said. The vaccine program was tied in with the March of Dimes campaign also held last January, he added.

The greatest contribution to the campaign, according to Dr. Shasky, was made by volunteer workers. He commended Jerry Gastineau, MOD chairman, and Harry Chipman, Mail Tribune telegraph editor, who helped organize the campaign. Local radio stations and newspapers also played a part in the program, he said.

Dr. Shasky pointed out 90 to 95 per cent of all pre-school children have been inoculated. Only 20 to 25 per cent of college students have vaccinated, he said.

Discussing the medical society, the public relations chairman said the society has started a grievance committee to consider matters protested by patients. Another new feature of the society, he added, is an emergency program keeping one doctor on call 24 hours a day at both Sacred Heart and Rogue Valley hospitals.
