On The Side

What vaudeville act was billed above Eva Tanguay when the "I Don't Care Girl" was at the peak of her popularity? It was Mathewson and Meyers. None other than Christy Mathewson and "Big Chief" Myers, then the star batter of the New York Giants, Christy and the Chief played 14 weeks in vaudeville and broke box office records everywhere. The "Chief" now lives in San Bernardino, Calif. I hear from him frequently. He is in the pink.

Maureen Connolly was given her first tennis racket on her fifth birthday. Bobby Jones was presented with his first set of golf clubs when he was about seven years old. When Bobby Feller was around eight years old his father began to show him how to pitch. Keep this in mind, sir. If you want your child to be a champion or topnotcher in some sport start him or her learning and practicing it at the age of five or thereabouts.

Go West — What was the inspiration of Horace Greeley's oft quoted advice, "Go West, young man"? The great editor voiced this immortal remark in offering advice to United States government clerks in Washington, D.C., who had been complaining about low salaries. Said Greeley, "Washington is not a place to live in. The rents are high, the food is bad, the dust is disgusting and the morals are deplorable. Go West, young man, go West and grow up with the country."

Asking — Queries from clients. Q. Often when we have a little argument my wife so loses her temper that she kicks me in the shins, steps on my toes or slaps my face. Therefore, I seek some sound advice from your Horses and Women experts. As a gentleman, what can I do in the way of retaliation at such times? A. I regret to say, sir, that your query baffles our experts. All I can do is to quote the observation of the great Chinese expert on Horses and Women, Wo Lin. "Three things the wise man does not do. He does not plow the sky. He does not paint pictures on the water and he does not argue with a woman."

Who invented the washing machine? Ask your wife that question. If she cannot answer it she should blush a long, long blush for her ignorance. Too many kindly and thoughtful men who have made life much easier for women are forgotten men. The inventor of the washing machine was Hamilton E. Smith. He invented it in Pittsburgh, Pa., in 1859. Our countrywomen should contribute to pay for a monument to be erected in his memory.

Day Off — If I had my choice of a day off I would take Monday. I would start the day by having my breakfast by the window and watch other people go to work. On Monday no place is really crowded. Lots of seats at the ball park. Nice and peaceful at the race course. No heavy traffic on the highways. No being held up by a preceding foursome at the golf course.

Sidelights — My nomination for the quaintest street name in the United States is that of Mistreating Alley in Port Arthur, Tex. My favorite street name is still Saw Mill River road in New York. If you have something to sell you should make at least eight cents a day on prospects. Such is the advice of one of the world's greatest salesmen. Although women repeatedly deny the contents of the average female's handbag are not numerous and curious the evidence is against them. A Californian reporting the loss of her handbag to the police said it contained:
